

TDM policy Karger.com

September 2024

The content on the Karger Websites – including but not limited to – journal articles and book chapters in whole or in parts, titles, logos, trademarks, graphic designs or adverts are the intellectual property of S. Karger AG or published with permission from the legal copyright owner. All rights are reserved.

“Text and Data Mining (TDM)” means a machine process by which information may be derived by identifying patterns and trends within natural language through text categorization, statistical pattern recognition, concept or sentiment extraction, and the association of natural language with indexing terms.

For all content, TDM technologies, including the training of artificial intelligence tools and applications, may be carried out for non-commercial purposes such as reproductions and extractions by research organizations and cultural heritage institutions for the purposes of scientific research on any type of information from Karger.com.

It is forbidden to use any of the Karger content available on or through the Karger website for the purposes of TDM, including the training of artificial intelligence tools and applications, for commercial purposes, without explicit consent of Karger.

Karger claims copyright on any output produced by TDM technologies, including artificial intelligence tools and applications, (“derivatives”) using Karger content, irrespective of the amount of the used content.

Please note that for open access content, TDM permissions and reuse are determined by the author's choice of user license. This also applies to artificial intelligence tools and applications. The Text and Data Mining (TDM) rights and permissions for such content are as follows:

For open access content under the CC BY, TDM (including the use of artificial intelligence tools and applications) is allowed subject to the condition that:

- you give appropriate credit, provide a link to the license, and indicate if changes were made.

For open access content under the CC BY-NC license, TDM (including the use of artificial intelligence tools and applications) is allowed for non-commercial purposes subject to the conditions that:

- you give appropriate credit, provide a link to the license, and indicate if changes were made;
- you do not use the material for commercial purposes.

For open access content under the CC BY-NC-ND, TDM (including the use of artificial intelligence tools and applications) is allowed for non-commercial purposes subject to the conditions that:

- you give appropriate credit and provide a link to the license;
- you do not use the material for commercial purposes;
- if you remix, transform, or build upon the material, or adapt it in any way, you do not distribute the modified material.

Inquiries concerning requests to use TDM technologies to derive information from Karger.com shall be addressed to Karger Front Office via e-mail (permission@karger.com), or through our online contact form at [Contact Us | Karger Publishers](#).
