

## Index rerum ad Vol. 28

Bearbeitet von G. BOEHM, Basel

(B) = Buchbesprechungen – Livres nouveaux – Book reviews

- N-Acetyl-neuraminic acid, v. Sialique...  
Advances in immunology (Vol. I),  
264 (B)  
–, v. Fortschritte, Immunohämatologie,  
Progress  
Afibrinogenaemia, congenital, v. Pla-  
quettes sanguines  
Agglutinationstest; zur Technik des  
Leukozyten-Agglutinationstestes, 273  
Agglutinin; presence of a human blood  
group agglutinin in thrombotest  
reagent, 326  
Agglutinins; leukocyte agglutinins (Pro-  
perties, occurrence and significance),  
136 (B)  
AHG (= Antihacmophilic globulin);  
circulating anti-AHG anticoagulant  
in a patient with lupus erythematosus  
disseminatus (Effect of a cephalin  
complex in vivo), 155  
–; v. Antihacmophilic globulin  
Allergy, delayed, to vascular antigens  
in systemic lupus erythematosus, 352  
Anaemia, COOLEY's anaemia, v. Tha-  
lassaemia maior  
Anaemia in experimental cirrhosis of the  
rat, 341  
Anaemia; FANCONI's anaemia, erythro-  
poietic dysfunction in a case, 230  
Anaemia, haemolytic, hereditary, signi-  
ficance of some craniometric features,  
239  
–, v. Anémics hémolytiques  
Anaemia, hypochromic, hyperferrae-  
mic; a case of "pyridoxine-respon-  
sive" anaemia, 188  
Anaemia, mediterranean, v. Thalass-  
aemia...  
Anaemia; oxygen uptake of red cells in  
anaemia, 119  
Anaemia, "pyridoxinc-responsive", a  
case, 188  
Anaemia, sickle cell anaemia, v. Sickle  
cell haemoglobin  
Anémics hémolytiques; études chromo-  
somiqnes dans quelques anémics  
hémolytiques, 20  
Anti-AHG (= Anti-antihacmophilic  
globulin); circulating anti-AHG anti-  
coagulant, in a patient with lupus  
erythematosus disseminatus (Effect of  
a cephalin complex in vivo), 155  
–; v. Antihacmophilic globulin  
Antibiotica, v. Chloramphenicol  
Antibodies, v. Antigens, vascular; Leu-  
kozyten-Agglutinationstest; Plaquet-  
tes sanguines; Thrombotest reagent  
Anticoagulant effect of various snake  
toxins in vitro, 180  
Anticoagulant therapy; methods for the  
laboratory control of short term anti-  
coagulant therapy, 168  
Anticoagulant, v. Anti-AHG, Coagu-  
lation intrinsèque  
Anticorps, v. Antibodies  
Antifibrinogène, sérum antifibrinogène  
fluorescent, v. Plaquettes sanguines  
Antigens, vascular; delayed allergy to  
vascular antigens in systemic lupus  
erythematosus, 352  
Antihacmophilic globulin (AHG), and  
plasma thromboplastin component  
deficiencies, associated with a quali-  
tative platelet disturbance, 61  
–, v. Anti-AHG  
Antikörper, v. Antigens, vascular; Leu-  
kozyten-Agglutinationstest; Plaquet-  
tes sanguines; Thrombotest reagent  
Antiplaquette, sérum antiplaquette,  
fluorescent, v. Plaquettes sanguines  
Antithrombokinasen, zu ihrer Charak-  
terisierung, 359  
Arteries, homogenates of human arte-  
ries, v. Allergy

- Autoradiography, v. Radioautographic studies...
- Biochemie und Klinik der menschlichen BluteiweiÙe (Symposion der Schweiz. Akad. d. medizin. Wissenschaften, 1960), 71 (B)
- Biopsie (Knochen und Knochenmark), v. Myelofibrosen
- Bleeding time, v. Saignement
- Blood antithrombokinasen, v. Antithrombokinasen
- Blood coagulation, v. Antihæmophilic globulin, Anti-AHG, Antithrombokinasen, Coagulation intrinsèque, Fibrinolyse, Hæmophilia, Phcnindione anticoagulants, Saignement, Snake toxins, Thromboplastin
- Blood eosinophilia, v. Eosinophilia
- Blood; functions of the blood 136 (B)
- Blood group agglutinin; presence of a human blood group agglutinin in thrombotest reagent, 326
- BluteiweiÙe; Biochemie und Klinik der menschlichen BluteiweiÙe (Symposion der Schweiz. Akad. d. medizinischen Wissenschaften, 1960), 71 (B)
- ; v. Protéines du sang
- Blutgerinnung, v. Blood coagulation
- Blutmorphologie, Leitfaden 72 (B)
- Blutplättchen, v. Plaquettes sanguines, Platelet counts, Platelet disturbance
- Blut-Thrombokinase, v. Antithrombokinasen
- Bluttransfusion, v. Pyridoxine, Saignement, Strahlenhaematologie
- Blutungszeit, v. Saignement
- Bone; pseudo-tumour of bone in hæmophilia, 137
- ; structural changes, v. Myelofibrosen
- ; v. Craniometric features
- Bone-marrow; effect of cell-free spleen extract on bone marrow-megakaryocytes of irradiated guinea-pigs (Preliminary report), 194
- ; v. Anémies hémolytiques, Chloramphenicol, Leukocyte production, Myelofibrosen
- Bone punch technique, v. Myelofibrosen
- Brain, v. Cerebrum
- Bruges, v. St. Jans Hospital
- Canadian Cancer Conference (Proceedings of the fourth Canadian Cancer Research Conference, Ontario, 1960), 135 (B)
- Cancer Conference, v. Canadian...
- Carbon tetrachloride, v. Cirrhosis
- Cavia porcellus*, v. Megakaryocytes
- CCl<sub>4</sub>, v. Cirrhosis
- Cell-free spleen extract, effect on bone marrow megakaryocytes of irradiated guinea-pigs (Preliminary report), 194
- Cephalin-bentonite test (= C.B.T.), v. Coagulation intrinsèque
- Cephalin, v. Anti-AHG
- Cerebrum, v. Hypothalamus
- Cerveau, v. Cerebrum
- Cheval, v. Eosinophile Leukozyten
- Chloramphenicol; in vitro action of chloramphenicol and chloramphenicol-analogues on the metabolism of human immature red blood cells, 1
- Chloromycetin, v. Chloramphenicol
- Chromium, radioactive, v. FANCONI's anaemia, Hæmoglobinopathy H
- Chromosomes; études chromosomiques dans quelques anémies hémolytiques, 20
- Ciba Foundation Symposium on hæmopoiesis (Cell production and its regulation), 72 (B)
- Cirrhosis of the liver; anaemia in experimental cirrhosis of the rat, 341
- Clotting mechanism, v. Coagulation of blood
- Clinical hematology (5th edition), 136 (B)
- Clinique, v. BluteiweiÙe, Clinical..., Fibrinolyse, Strahlenhaematologie
- Co<sup>60</sup>, v. Megakaryocytes
- Coagulation of blood, v. Antihæmophilic globulin, Anti-AHG, Antithrombokinasen, Coagulation intrinsèque, Fibrinolyse, Hæmophilia, Phenindione anticoagulants, Saignement, Snake toxins, Thromboplastin
- Coagulation intrinsèque; l'emploi d'un nouveau test de contrôle de la coagulation intrinsèque, 370
- Cobalt, radioactive, v. Megakaryocytes
- Cobaye, v. Megakaryocytes
- Colloquium, v. St. Jans Hospital
- Comptes rendus, v. Néphrologie
- Conference, v. Cancer conference

- Congrès de la Société Européenne d'Hématologie, Lisbonne (9ème congrès, août 1963), 328
- Congress, v. Néphrologie, Société
- COOLEY's anaemia, v. Thalassaemia maior
- COON's technique, v. Plaquettes sanguines
- Corrélation, v. Coagulation intrinsèque
- Correlation, coefficient, v. Craniometric features
- Coumarin drugs, v. Anticoagulant therapy
- Counts of platelets, v. Platelet counts
- Cr<sup>51</sup>, v. FANCONI's anaemia, Haemoglobinopathy H
- Craniometric features, significance in hereditary haemolytic anaemias, 239
- Cytochemistry, v. Histochemical studies...
- Delayed allergy to vascular antigens in systemic lupus erythematosus, 352
- Desoxyribonucleic acid, v. Leukocyte survival, Lymphocytes
- Drepanocytosis, v. Craniometric features, Sickle cell haemoglobin
- Ductus thoracicus, v. Thoracic duct
- Eisen (radioaktives), v. Chloramphenicol, FANCONI's anaemia, Haemoglobinopathy H, "Pyridoxine-...
- Eiweiß, v. Bluteiweiße, Proteins, Proteides
- Electron microscope, v. Eosinophile Leukozyten, Lymphocytes
- Electrophoresis (Immunelectrophoresis), v. Plaquettes sanguines
- Electrophoresis (paper electrophoresis), v. Leukaemic myelosis, Sickle cell haemoglobin
- Elektronenmikroskopische Beobachtungen an eosinophilen Leukozyten vom Pferd, 163
- Energy metabolism, v. Métabolisme énergétique
- Entzündung; entzündliches Exsudat, v. Leukocytes
- Eosinophile Leukozyten vom Pferd, elektronenmikroskopische Beobachtungen, 163
- Eosinophilia; blood eosinophilia caused by a common parasite in laboratory rats, 306
- Equus caballus*, v. Eosinophile Leukozyten
- Erythrocytes; comportement de l'acide sialique érythrocytaire dans la thalassémie majeure et dans le favisme ictéro-hémoglobinurique, 283
- ; in vitro action of chloramphenicol and chloramphenicol-analogues on the metabolism of human immature red blood cells, 1
- ; studies of haemoglobin synthesis and red cell survival in haemoglobinopathy H, 124
- ; le métabolisme énergétique de l'érythrocyte thalassémique, 293
- ; microspectrophotometric determination of differentially extracted haemoglobin in single erythrocytes, 73
- ; oxygen uptake of red cells in anaemia, 119
- Erythrokinetic studies, v. FANCONI's anaemia
- Erythropoiesis; influence of hypoxic stimuli upon erythropoiesis in hypothalamic lesioned animals, 101
- ; v. Chloramphenicol
- Erythropoietic dysfunction in a case of FANCONI's anaemia, 230
- Estamper (os), v. Myelofibrosen
- Européenne; 9ème Congrès de la Société Européenne d'Hématologie, Lisbonne (août 1963), 328
- Family with two types of thalassaemia, v. Sickle cell haemoglobin
- FANCONI's anaemia, erythropoietic dysfunction in a case, 230
- Favism; sur le comportement de l'acide sialique érythrocytaire dans la thalassémie majeure et dans le favisme ictéro-hémoglobinurique, 283
- Fe<sup>59</sup>, v. Chloramphenicol, FANCONI's anaemia, Haemoglobinopathy H, "Pyridoxine-...
- Feinstruktur, v. Eosinophile Leukozyten, Lymphocytes
- Fer (radioactive), v. Chloramphenicol, FANCONI's anaemia, Haemoglobinopathy H, "Pyridoxine-...
- Ferments, v. Phosphorylase, Sialique..., Thalassaemia maior et minor
- Fettbelastung, v. Antithrombokinasen
- Fibrinogène à l'intérieur des plaquettes sanguines, v. Plaquettes sanguines

- Fibrinogène, sérum antifibrinogène fluorescent, v. Plaquettes sanguines  
 Fibrinolyse; Einführung in die Klinik der Fibrinolyse, 198 (B)  
 Fluorescent antibodies, v. Plaquettes sanguines  
 Foie, v. Cirrhosis, Hepatic lymph  
 Fortschritte der experimentellen Tumorforschung (Bd. 2), 263 (B)  
 —, v. Advances, Immunohämatologic, Progress  
 France; Société Française d'Hématologie et Société Nationale de Transfusion Sanguine, séance commune, Paris (février 1963) (Les allongements du temps de saignement), 378  
 Functions of the blood, 136 (B)
- Gamma-rays, v. Megakaryocytes  
 Gefäße, v. Vascular antigens  
 Gehirn, v. Hypothalamus  
 Generalisierter Lupus erythematodes, v. Lupus erythematosus  
 Genetics, medical, progress (Vol. I) 70 (B)  
 —, v. Sickle cell haemoglobin  
 Gesellschaften, v. Société  
 Gesellschaftsberichte, v. Bluteiweiße, Canadian Cancer Conference, Haemoglobin, Haemopoiesis, Néphrologie  
 Gewebs-Thrombokinase, v. Antithrombokinase  
 Globulin, v. Antihaemophilic globulin, Anti-AHG  
 Glucose-6-phosphate déhydrogénase, v. Sialique...  
 Glycogen; histochemical studies of leukocytes from an inflammatory exudate. Glycogen and phosphorylase, 86  
 Granula, v. Eosinophile Leukozyten  
 Guinea-pig, v. Megakaryocytes
- H<sup>3</sup> (H<sup>3</sup>-thymidine), v. Lymphocytes  
 Hämatologie; Immunohämatologie (Fortschritte der Immunitätsforschung, Bd. 3), 71 (B)  
 —; Strahlenhämatologie, experimentelle und klinische (Haematologie und Bluttransfusion, Bd. 1), 135 (B)  
 Haematology; clinical hematology (5th edition), 136 (B)
- Haematology, veterinary, 71 (B)  
 —, v. Société Européenne...  
 Haem... , v. Hem...  
 Haemoglobin; formation and breakdown (Proceedings of the symposium, Leeds, 1960), 200 (B)  
 —; microspectrophotometric determination of differentially extracted haemoglobin in single erythrocytes, 73  
 —; sickle cell haemoglobin and two types of thalassaemia in the same family, 329  
 —; synthesis, v. Haemoglobinopathy H  
 Haemoglobinopathy H; studies of haemoglobin synthesis and red cell survival in haemoglobinopathy H, 124  
 Haemoglobinurie (bei Favismus), v. Sialique...  
 Haemolysis, v. Anémies hémolytiques  
 Haemophilia; pseudo-tumour of bone in haemophilia, 137  
 Haemophilia, v. Antihaemophilic globulin, Anti-AHG  
 Haemopoiesis; a Ciba foundation symposium on haemopoiesis (Cell production and its regulation), 72 (B)  
 Haemorrhagic diathesis, v. Anti-AHG  
 Hb A<sub>2</sub>, v. Haemoglobin  
 Hb F, v. Haemoglobin  
 Hb S, v. Haemoglobin  
 Hem... , v. Haem...  
 Hématologie, v. Société Européenne...  
 Hematology, clinical hematology (5th edition), 136 (B)  
 —, veterinary, 71 (B)  
 —, v. Haematology  
 Hémoglobinurie (favisme ictéro-hémoglobinurique), v. Sialique...  
 Hémolyse, v. Haemolysis  
 Hémolytiques, anémies, v. Anémies hémolytiques  
 Hem... (Hém...), v. Haem...  
 Hepar, v. Cirrhosis  
 Hepatic lymph; comparison between the lymphocytes in the hepatic and intestinal lymph, 255  
 Hcredopathy, v. Anaemia, haemolytic, hereditary; Antihaemophilic globulin; Genetics; Haemoglobinopathy H; Thalassaemia...  
 Heterozygote types of thalassaemia, v. Sickle cell haemoglobin

- Histochemical studies of leukocytes from an inflammatory exudate. Glycogen and phosphorylase, 86
- Horse, v. Eosinophile Leukozyten
- H<sup>3</sup>-thymidine, v. Lymphocytes
- Human blood group agglutinin, presence in thrombotest reagent, 326
- Human genetics, v. Medical genetics
- Human immature red blood cells, v. Red cells
- Hypothalamus, lesions; influence of hypoxic stimuli upon erythropoiesis in hypothalamic lesioned animals, 101
- Hypoxic stimuli, influence upon erythropoiesis in hypothalamic lesioned animals, 101
- Ictéro-hémoglobinurique, favisme-, v. Sialique. . .
- Immature red blood cells, v. Chloramphenicol
- Immunelectrophoresis, v. Plaquettes sanguines
- Immunohämatalogie (Fortschritte der Immunitätsforschung, Bd. 3), 71 (B)
- Immunology, advances (Vol. 1), 264 (B)
- Indanation drugs, v. Phenindione anticoagulants
- Inflammatory exudate, v. Leukocytes
- Intestinal lymph; comparison between the lymphocytes in hepatic and intestinal lymph, 255
- Intoxication, v. Cirrhosis
- Intravascular clotting, v. Coagulation intrinsèque
- Intrinsèque, coagulation -, v. Coagulation intrinsèque
- Intrinsic thromboplastin formation, v. Coagulation intrinsèque
- Iron (radioactive), v. Chloramphenicol, FANCONI's anaemia, Haemoglobinopathy H, "Pyridoxine- . . .
- Irradiation; effect of cell-free spleen extract on bone marrow megakaryocytes of irradiated guinea-pigs (Preliminary report), 194
- ; v. Strahlenhaematologie
- Isotope, radioaktive, v. Chloramphenicol, FANCONI's anaemia, Haemoglobinopathy H, Leukocyte survival, Lymphocytes, Megakaryocytes
- Kephalin-Bentonit Test (= C.B.T.), v. Coagulation intrinsèque
- Kephalin, v. Anti-AHG
- Kidney, v. Néphrologie
- Klinik und Biochemie der menschlichen Bluteiweiße (Symposion der Schweiz. Akad. d. medizin. Wissenschaften, 1960), 71 (B)
- Klinik, v. Hematology, Strahlenhaematologie
- Klinik der Fibrinolyse, Einführung, 199 (B)
- Knochen, v. Bone, Craniometric features
- Knochenmark, v. Anémies hémolytiques, Bone marrow, Chloramphenicol, Knochenveränderungen, Leukocyte production
- Knochenstanzung, v. Myelofibrosen
- Knochenveränderungen der Myelofibrosen und Osteomyelofibrosen, 201
- Kobalt, radioaktives, v. Megakaryocytes
- Kongreß, v. Congrès, Congress
- Korrelation, v. Coagulation intrinsèque
- Korrelationskoeffizient, v. Craniometric features
- Laboratory control of short term anticoagulant therapy, methods, 168
- Laboratory rats, v. Eosinophilia
- Leber, v. Cirrhosis, Hepatic lymph
- Leitfaden der Blutmorphologie, 72 (B)
- Leukaemia, chronic; leukocyte survival in chronic leukaemia with the aid of a tracer and a therapy dose of P<sup>32</sup> (Leukocyte survival in leukaemias), 25
- Leukaemic myelomatosis (Plasma-cell leukaemia), 222
- Leukocyte agglutinins (Properties, occurrence and significance), 136 (B)
- Leukocyte production and release, mechanisms (I.: Factors influencing leukocyte release from isolated perfused rat femora), 42
- Leukocyte release, v. Leukocyte production
- Leukocyte survival in chronic leukaemia with the aid of a tracer and a therapy dose of P<sup>32</sup> (Leukocyte survival in leukaemias), 25

- Leukocyten-Agglutinationstest, zu seiner Technik, 273
- Leukocyten; elektronenmikroskopische Beobachtungen an eosinophilen Leukozyten vom Pferd, 163
- Leukocytes; histochemical studies of leukocytes from an inflammatory exudate. Glycogen and phosphorylase, 86
- Leukopoiesis, v. Leukocyte production
- Libri, 70-72 (B), 135-136 (B), 198-200 (B), 263-264 (B)
- Liver, v. Cirrhosis, Hepatic lymph
- Lupus erythematosus disseminatus; circulating anti-AHG anticoagulant in a patient with lupus erythematosus disseminatus (Effect of a cephalin complex in vivo), 155
- Lupus erythematosus, systemic, delayed allergy to vascular antigens, 352
- Lymph; comparison between the lymphocytes in hepatic and intestinal lymph, 255
- Lymph in the thoracic duct, v. Lymphocytes
- Lymphocytes, in hepatic and intestinal lymph, comparison, 255
- , radioautographic studies of small lymphocytes in the thoracic duct of the rat, 145
- Manual, v. Morphology
- Medical genetics, progress (Vol. I), 70 (B)
- Mediterranean anaemia, v. Thalassemia . . ., Thalassémie
- Medulla ossium, v. Bone marrow
- Meerschweinchen, v. Megakaryocytes
- Megakaryocytes; effect of cell-free spleen extract on bone marrow megakaryocytes of irradiated guinea-pigs (Preliminary report), 194
- Métabolisme énergétique de l'érythrocyte thalassémique, 293
- Metabolismus, v. Chloramphenicol
- Métamorphose visqueuse des plaquettes sanguines, v. Plaquettes sanguines
- Methode, v. Coagulation intrinsèque, Leukocyten-Agglutinationstest, Microspectrophotometric determination, Perfusion of bone marrow, Phenindione anticoagulants, Platelet counts, Thrombotest reagent
- Microscope électronique, v. Eosinophile Leukozyten, Lymphocytes
- Microspectrophotometric determination of differentially extracted haemoglobin in single erythrocytes, 73
- Milz, v. Megakaryocytes
- Moelle osseuse, v. Anémies hémolytiques, Bone marrow, Chloramphenicol, Leukocyte production, Myelofibrosen
- Morphologie sanguine, précis, 72 (B)
- Morphology of blood; manual of blood morphology, 72 (B)
- Myelofibrosen und Osteomyelofibrosen, Knochenveränderungen, 201
- Myelomatosis, leukaemic (Plasma-cell leukaemia), 222
- Nematodes*, v. Eosinophilia
- Néphrologie-Nephrology (Comptes rendus du 1er congrès international; Genève et Evian, 1960), 198 (B)
- Nervensystem, v. Hypothalamus
- Niere, v. Néphrologie
- Numération, v. Platelet counts
- Oncogenic viruses, 264 (B)
- Os, v. Bone, Craniometric features
- Os, modifications de la structure, v. Myelofibrosen
- Osteomyelofibrosen und Myelofibrosen, Knochenveränderungen, 201
- Oxygen uptake of red cells in anaemia, 119
- Oxygen, v. Hypoxic stimuli
- OWREN test, v. Thrombotest reagent
- $P^{32}$ , v. Leukocyte survival
- Paper electrophoresis, v. Leukaemic myelosis, Sick cell haemoglobin
- Parasite in laboratory rats; blood eosinophilia caused by a common parasite in laboratory rats, 306
- Perfusion of bone marrow of rat femora. Mechanisms of leukocyte production and release. (I.: Factors influencing leukocyte release from isolated perfused rat femora), 42
- Pferd, v. Eosinophile Leukozyten
- Phenindione anticoagulants; methods for the laboratory control of short term anticoagulant therapy, 168
- Phospholipids, v. Leukocyte survival
- Phosphorus, radioactive, v. Leukocyte survival

- Phosphorylase; histochemical studies of leukocytes from an inflammatory exudate. Glycogen and phosphorylase, 86
- Plaquettes sanguines; étude morphologique des plaquettes sanguines et de la métamorphose visqueuse au moyen d'antisérums fluorescents antifibrinogène et antiplaquettes, 313
- ; v. Platelet counts, Platelet disturbance
- Plasma-cell leukaemia. Leukaemic myelosis, 222
- Plasma thromboplastin; the action of serum on plasma thromboplastin, 265
- Plasma thromboplastin component and antihæmophilic globulin deficiencies, associated with a qualitative platelet disturbance, 61
- Platelet counts estimated from platelet rich plasma, 113
- Platelet disturbance, qualitative; antihæmophilic globulin and plasma thromboplastin component deficiencies, associated with a qualitative platelet disturbance, 61
- Platelet rich plasma, platelet counts, 113
- Platelets, v. Plaquettes sanguines
- Précis, v. Morphologie
- Proceedings, v. BluteiweiÙe, Canadian Cancer Conference, Haemoglobin, Haemopoiesis, Néphrologie
- Progress in medical genetics (Vol. I), 70 (B)
- , v. Advances, Fortschritte, Immunohæmatologie
- Protéines du sang humain (Ed. française), 263 (B)
- , v. BluteiweiÙe
- Protides of the biological fluids (XIth annual colloquium, St. Jans Hospital, Bruges (May 1963), 378
- Pseudo-tumour of bone in hæmophilia, 137
- Punch technique (bone), v. Myelofibrosen
- Punktion (Knochen und Knochenmark) v. Myelofibrosen
- Pyridoxine; failure of pyridoxine to change the transfusion requirement of patients with thalassaemia maior, 95
- "Pyridoxine-responsive" anaemia, a case, 188
- QUICK-test, v. Phenindione anticoagulants
- Radiation, v. Megakaryocytes, Strahlenhæmatologie
- Radioaktives Eisen, v. Chloramphenicol, FANCONI's anaemia, Haemoglobinopathy H, "Pyridoxine-...
- Radioautographic studies of small lymphocytes in the thoracic duct of the rat, 145
- Radiochrome, v. FANCONI's anaemia, Haemoglobinopathy H
- Radiocobalt, v. Megakaryocytes
- Radiophosphor, v. Leukaemia, chronic
- Rat femur, isolated (perfusion of the bone marrow), v. Leukocyte production
- Rat, v. Cirrhosis, Thoracic duct
- Rats; blood eosinophilia caused by a common parasite in laboratory rats, 306
- Rate, v. Megakaryocytes
- Red cell survival; studies of haemoglobin synthesis and red cell survival in hæmoglobinopathy H, 124
- Red cells; in vitro action of chloramphenicol and chloramphenicol-analogues on the metabolism of human immature red blood cells, 1
- ; oxygen uptake, in anaemia, 119
- ; v. Erythrocytes
- Ren, v. Néphrologie
- Ribonucleic acid, v. Leukocyte survival
- Saignement; les allongements du temps de saignement (Séance commune organisée par la Société Française d'Hématologie et par la Société Nationale de Transfusion Sanguine, Paris (février 1963), 378
- Sauerstoff, v. Hypoxic stimuli, Oxygen uptake
- Schädel, Anomalien, v. Craniometric features
- Schlangengifte, v. Snake toxins
- Serpentes, v. Snake toxins
- Serum; the action of serum on plasma thromboplastin, 265
- Sialique; acide sialique érythrocytaire, comportement dans la thalassémie majeure et dans le favisme ictéro-hémoglobinurique, 283
- Sicklaemia, v. Craniometric features

- Sickle cell haemoglobin and two types of thalassaemia in the same family, 329
- Sitzungsberichte, v. BluteiweiÙe, Canadian Cancer Conference, Haemoglobin, Haemopoiesis, Néphrologie
- Skull, anomalies, v. Craniometric features
- Small lymphocytes, v. Lymphocytes
- Snake toxins; anticoagulant effect of various snake toxins in vitro, 180
- Société Européenne d'Hématologie, 9ème congrès, Lisbonne (août 1963), 328
- Société Française d'Hématologie et Société Nationale de Transfusion sanguine, séance commune, Paris (février 1963) (Les allongements du temps de saignement), 378
- Société Nationale de Transfusion Sanguine, v. Société Française d'Hématologie
- Spectrophotometry, v. Microspectrophotometric determination
- Spherocytosis, hereditary, v. Craniometric features
- Spleen extract; effect of cell-free spleen extract on bone marrow megakaryocytes of irradiated guinea-pigs (Preliminary report), 194
- Splen, v. Spleen extract
- St. Jans Hospital, Bruges, XIth annual colloquium (May 1963) (Protides of the biological fluids), 378
- Stanzmethode (Knochen), v. Myelofibrosen
- Statistische Auswertung, v. Craniometric features, (Hypoxic stimuli), Leukocyte survival, Lymphocytes, Megakaryocytes, Oxygen uptake
- Stoffwechsel, v. Metabolism
- Stoffwechsel, energetischer, v. Métabolisme énergétique
- Strahlenhaematologie, experimentelle und klinische (Haematologie und Bluttransfusion, Bd. I), 135 (B)
- Submicroscopical structure, v. Eosinophile Leukozyten, Lymphocytes
- Survival, v. Erythrocytes, studies of haemoglobin synthesis. . . ; Leukocyte survival
- Symposium, v. BluteiweiÙe, Haemoglobin, Haemopoiesis
- Systemic lupus erythematosus, v. Lupus erythematosus
- Test nouveau; l'emploi d'un nouveau test de contrôle de la coagulation intrinsèque, 370
- Tetrachlorure de carbone, v. Cirrhosis
- Thalassaemia (Modern medical monographs 23), 200 (B)
- Thalassaemia; sickle cell haemoglobin and two types of thalassaemia in the same family, 329
- Thalassaemia maior; failure of pyridoxine to change the transfusion requirement of patients with thalassaemia maior, 95
- ; sur le comportement de l'acide sialique érythrocytaire dans la thalassémie majeure et dans le favisme ictéro-hémoglobinurique, 283
- Thalassaemia maior et minor; le métabolisme énergétique de l'érythrocyte thalassémique, 293
- Thalassaemia, v. Craniometric features
- Thalassémie, v. Thalassaemia. . .
- Therapy, anticoagulant; methods for the laboratory control of short term anticoagulant therapy, 168
- Therapy, v. Anti-AHG; Leukaemia, chronic
- Thoracic duct of rats; radioautographic studies of small lymphocytes in the thoracic duct of the rat, 145
- Thrombocytes, v. Plaquettes sanguines, Platelet counts, Platelet disturbance
- Thrombokinase, v. Antithrombokinasen
- Thromboplastin; the action of serum on plasma thromboplastin, 265
- ; antihæmophilic globulin and plasma thromboplastin component deficiencies, associated with a qualitative platelet disturbance, 61
- Thromboplastinbildung, intravasale, v. Coagulation intrinsèque
- Thrombotest reagent; presence of a human blood group agglutinin in thrombotest reagent, 326
- Thymidine ( $H^3$ -thymidine), v. Thoracic duct
- Tissue antithrombokinasen, v. Antithrombokinasen
- Touricéphalie, v. Craniometric features
- Toxins, v. Snake toxins

- Transfusion requirement of patients with thalassaemia maior, v. Pyridoxine
- Transfusion, v. Saignement, Strahlenhaematologie
- Trichosomoides crassicauda* (= parasite of laboratory rats), v. Eosinophilia
- Tritium (= H<sup>3</sup>), v. Lymphocytes
- Tumor; pseudo-tumour of bone in haemophilia, 137
- Tumoren, v. Oncogenic viruses
- Tumorforschung; Fortschritte der experimentellen Tumorforschung (Bd. 2), 263 (B)
- Turmschädel, v. Craniometric features
- Turriccephaly, v. Craniometric features
- Ultrastructure, v. Eosinophile Leukozyten, Lymphocytes
- Ultrazentrifugierung, v. Antithrombokinase
- Vaisseaux, v. Vascular antigens
- Varia, 328, 378
- Vascular antigens; delayed allergy to vascular antigens in systemic lupus erythematosus, 352
- Venins de serpent, v. Snake toxins
- Vergiftung, v. Cirrhosis
- Vermes, v. Eosinophilia
- Vessels, v. Vascular antigens
- Veterinary hematology, 71 (B)
- Vicia faba*, v. Sialique. . .
- Viruses, oncogenic, 264 (B)
- Viscous metamorphosis of the platelets, v. Plaquettes sanguines
- Vitamine B<sub>6</sub>, v. Pyridoxine, "Pyridoxine responsive" anaemia
- Zählung, v. Platelet counts

## Index autorum ad Vol. 28
