

Announcements

Following the 3rd International Congress of Medicine and Nuclear Biology, Paris, August 29 to September 2, 1982, a meeting on hematology is to be held. The following subjects will be deliberated upon: Kinetics of granulocytes and blood platelets: labeling methods, analysis of results, biochemical markers of cell renewal, and methods of analysis of the production of granulocytes and platelets.

The meeting will be held on Friday, September 3, 1982 at the CHU Saint-Louis-Lariboisière, 10, avenue de Verdun, Paris 10e, France (Métro Gare de l'Est).

Organizing committee:

For granulocytic series: C. Beckers, Université Catholique de Louvain, Service de Médecine Nucléaire, 10, avenue Hypocrate, UCL 10/1780, B-1200 Bruxelles (Belgium).

For blood platelets: Y. Najean, Service de Médecine Nucléaire, Hôpital St-Louis, 2, place du Dr.-A.-Fournier, F-75375 Paris Cédex 10 (France).

Hematologists who would like to attend this meeting, or present documents or papers, are kindly requested to contact one of the responsible persons as listed above.

Registration at the Congress of Nuclear is not necessary.

French Association of Haemophiliacs International Prize

Aim: Promote scientific research in the field of haemophilia.

Amount: 15,000 FF.

Deadline: March 15, 1983.

Information: Association Française des Hémophiles,

Centre National de Transfusion Sanguine,
6, rue Alexandre Cabanel,
F-75015 Paris, France.

The prize will be awarded for the 5th time at the Congress of the World Federation of Haemophilia, Stockholm 1983.

The last prize winner was Prof. *P. M. Manucci* (Milan, Italy), for his contribution to the study of liver diseases in haemophiliacs and the use for pharmacological tools for treatment of the mild forms of this disorder.
