

Subject Index

Compiled by G. Boehm, Basel
(B) = Book Review

- Abnormal haemoglobins and thalassaemia: methods and control 1
- African* neonates; the limits of physiological anaemia in *African* neonates 99
- ; pattern of leukocytes in the blood of healthy *African* neonates 104
- Alpha-chains, v. Philadelphia chromosome
- Alpha globin gene triplication in severe heterozygous beta thalassaemia 236
- Amoxicillin-induced immune haemolysis 230
- Anaemia, aplastic, functional changes in marrow stromal cells 65
- ; v. T-derived colony-inhibiting activity
- Anaemia, aplastic, severe; positive direct antiglobulin tests and heteroimmune haemolysis in patients with severe aplastic anaemia and pure red cell anaemia treated with antilymphocytic globulin 14
- ; treatment with anti-thymocyte globulin 144
- Anaemia in children with sickle cell disease and *Fanconi's* hypoproliferative anaemia, erythropoietin response 6
- Anaemia of chronic disorders, v. Anaemia, iron deficiency
- Anaemia, dyserythropoietic; severe haemochromatosis: the predominant clinical manifestation of congenital dyserythropoietic anaemia type 2 178
- Anaemia, haemolytic, autoimmune, as the presenting manifestation of malignant thymoma 40
- Anaemia, iron deficiency; myeloperoxidase activity of polymorphonuclear leukocytes in iron deficiency anaemia and anaemia of chronic disorders 151
- ; red cell superoxide dismutase is increased in iron deficiency anaemia 218
- Anaemia, physiological, limits in *African* neonate 99
- Anaemia, pure red cell anaemia, v. Anaemia, aplastic, severe
- Anaemia, refractory, with excess of blasts as a terminal evolution of paroxysmal nocturnal haemoglobinuria (A case report with chromosomal analysis) 181
- Anaemia, sickle cell anaemia; clinical manifestation and laboratory findings of sickle cell anaemia in association with α -thalassaemia in *Saudi Arabia* 155
- ; homozygous, lymphocyte subpopulations 10
- Anaemic mouse strains; stromal cells (CFU-F) in normal and genetically anaemic mouse strains 75
- Androgen, v. Danazol
- Angioimmunoblastic lymphadenopathy; sequential appearance of immunoblastic lymphoma and acute nonlymphocytic leukaemia in a patient with angioimmunoblastic lymphadenopathy 175
- ; severe pancytopenia due to marked marrow fibrosis associated with angioimmunoblastic lymphadenopathy 43
- Antibodies, monoclonal, v. Immunoelectron scanning microscopy, Lymphocyte subpopulations
- Anticoagulants and myocardial infarction (A reappraisal) 64(B)
- Anticoagulation, oral; laboratory control, optimal therapeutic ranges and therapeutic quality control in oral anticoagulation (Review) 125
- Antifibrinolytic drugs (Chemistry, Pharmacology and Clinical Usage) 63(B)
- Antigens, blood cell antigens, v. Immunobiology (B)
- Antilymphocytic globulin; positive direct antiglobulin tests and heteroimmune haemolysis in patients with severe aplastic anaemia and pure red cell anaemia treated with antilymphocytic globulin 14
- Anti-thymocyte globulin; treatment of severe aplastic anaemia with anti-thymocyte globulin 144
- Aplastic anaemia, v. Anaemia, aplastic
- Autoimmune haemolytic anaemia as the presenting manifestation of malignant thymoma 40
- B-cell immunoblastic non-*Hodgkin's* lymphoma; Ph chromosome and B-cell malignancy-associated chromosomal aberrations in nonleukaemic immunoblastic B-cell lymphoma 171
- B cells, v. Leukaemia, lymphocytic, chronic
- BFU-E, v. Bone marrow aspirates
- Blast crisis; extramedullary presentation of blast crisis in chronic myelogenous leukaemia 52
- Blasts, excess of blasts in transformation, v. Refractory anaemia...
- Blood cell antigens, v. Immunobiology (B)
- Blood coagulation; human blood coagulation, haemostasis and thrombosis (3rd ed.) 122(B)
- Blood coagulation, v. Coagulation of blood
- Blood, peripheral, admixture, v. Bone marrow aspirates
- Blood transfusion; infection, immunity and blood transfusion (Progress in clinical and biological research, vol. 182) 123(B)
- Blutbildung, v. Regulationsmodelle (B)
- Blutgerinnung - Blut- und Knochenmarksmorphologie (Ein Leitfaden) (17. Aufl.) 63(B)
- Blut- und Knochenmarksmorphologie - Blutgerinnung (Ein Leitfaden) (17. Aufl.) 63(B)
- Bone marrow; functional changes in marrow stromal cells in aplastic anaemia 65
- Bone marrow aspirates; influence of peripheral blood admixture on the number of haematopoietic progenitor cells (CFU-GM and BFU-E) in human bone marrow aspirates 70
- Bone marrow biopsies; lymphoid nodules and nodular lymphoid hyperplasia in bone marrow biopsies 19
- Bone marrow-conditioned medium and platelet-derived growth factor, effect on the proliferation of human bone marrow-derived fibroblastoid colony-forming cells 189
- Bone marrow fibrosis; severe pancytopenia due to marked marrow fibrosis associated with angioimmunoblastic lymphadenopathy 43
- Bone marrow, pathology (Proceedings of the 67th meeting of the German Society of Pathology, 1983) 64(B)
- Bone marrow; stromal cells (CFU-F) in normal and genetically anaemic mouse strains 75
- Bone marrow transplantation for acute nonlymphoid leukaemia in first remission 23
- Bone marrow transplantation, v. Immunobiology (B)
- Bone marrow, v. Extramedul-

- lary blast crisis, Knochenmark (B)
- Bony lesions; disodium cromoglycate in the treatment of systemic mastocytosis involving only bone 108
- Book reviews, 61-64 (B), 122-124(B)
- Brain lymphoma, primary; *Epstein-Barr* virus-positive primary brain lymphoma complicating immunoblastic lymphadenopathy 114
- Bromsulphalein; inhibition of erythrocyte glutathione-peroxidase by bromsulphalein 222
- Cancer, human and immune complexes (Contemporary topics in immunobiology, vol. 15) 123(B)
- Cancer, ovarian cancer (chemotherapy), v. Leukaemia, myelogenous, chronic
- Cell cultures, v. Stromal cells
- CFU-F, v. Fibroblastoid colony-forming cells, stromal cells
- CFU-GM, v. Bone marrow aspirates
- Chemotherapy; Philadelphia-chromosome-negative chronic myelogenous leukaemia with incomplete trisomy 1q following chemotherapy for ovarian cancer 168
- Chemotherapy, v. Leukaemia, plasma cell leukaemia; Lymphadenopathy, angioimmunoblastic
- Children, v. Anaemia
- Chromosomal aberrations; consistent, and oncogenes in human tumours (Cancer surveys, vol. 3, no. 3) 122(B)
- ; Ph chromosome and B-cell malignancy-associated chromosomal aberrations in non-leukaemic immunoblastic B-cell lymphoma 171
- Chromosomal anomalies, v. Paroxysmal nocturnal haemoglobinuria
- Chromosomenaberrationen bei Lymphomen und lymphomähnlichen Erkrankungen 124(B)
- Chromosomes; linkage of the α^G Philadelphia locus to α -thalassaemia in the Cuban population 186
- ; v. Alpha globin gene
- Coagulation of blood, v. Anticoagulation, Blood coagulation(B), Blutgerinnung(B), Factor VIII, Fibrinogen(B), Fibrinolysis(B), Haemostatic mechanism(B), Thrombocytopenia, Thrombocytopenic purpura, Thrombocytosis, Thrombosis, Vitamin K
- Coagulation problems during pregnancy (Current reviews in obstetrics and gynaecology, vol. 10) 62(B)
- Cobalamin, v. Vitamin B₁₂
- Cold-insoluble globulin, v. Fibronectin
- Colony-inhibiting activity, T-derived: partial characterization and mechanism of action 195
- Congress, v. Mediterranean Society, Phagocyte function
- Cromoglycate; disodium cromoglycate in the treatment of systemic mastocytosis involving only bone 108
- Cryoglobulinaemia and fibronectin 161
- Cuban population; linkage of the α^G Philadelphia locus to α -thalassaemia in the Cuban population 186
- Cyclophosphamide-vincristine-cytosin-arabinoside-prednisone, v. Leukaemia, plasma cell leukaemia
- Cytochalasin B; modifications in the phagocytosis of human neutrophils induced by vinblastine and cytochalasin B: the effects of lithium 81
- Cytometry; practical flow cytometry 63(B)
- Danazol in idiopathic thrombocytopenic purpura 120
- Danazol for the treatment of idiopathic thrombocytopenic purpura 97
- Disodium cromoglycate, v. Cromoglycate
- Drug-induced haemolysis, v. Amoxicillin-...
- Dyserythropoietic anaemia, congenital; severe haemochromatosis: the predominant clinical manifestation of congenital dyserythropoietic anaemia type 2 178
- Editorial I
- Electron microscopy; scanning immunoelectron microscopy of hairy cell leukaemia 200
- Electron microscopy (transmission), v. Haemophagocytosis; Lymphoma, malignant; T cell lymphoma
- Epstein-Barr* virus-positive primary brain lymphoma complicating immunoblastic lymphadenopathy 114
- Erythrocytes; glutathione-peroxidase of erythrocytes, inhibition by bromsulphalein 222
- ; red blood cells as carriers for drugs (Proceedings of the first international conference on red cell carriers for disseminating chemicals via the circulatory system, 1984) (Bibliotheca Haematologica, vol. 51) 64(B)
- ; red cell superoxide dismutase is increased in iron deficiency anaemia 218
- Erythropoietin response to anaemia in children with sickle cell disease and *Fanconi's* hypoproliferative anaemia 6
- Extramedullary presentation of blast crisis in chronic myelogenous leukaemia 52
- Factor VIII related antigen; megakaryocytopoiesis in different forms of thrombocytosis and thrombocytopenia: identification of megakaryocyte precursors by immunostaining of intracytoplasmic factor-VIII-related antigen 208
- Families, v. Alpha globin gene, Philadelphia chromosome, Thalassaemia (alpha)
- Fanconi's* anaemia; erythropoietin response to anaemia in children with sickle cell disease and *Fanconi's* hypoproliferative anaemia 6
- Ferments, v. Glucose-6-phosphatase dehydrogenase, Glutathione-peroxidase, Myeloperoxidase, Poly(A)-polymerase, Superoxide dismutase
- Ferritin, v. Iron deficiency anaemia
- Fetal haemoglobin levels and splenic function in sickle cell disease 240
- ; reply 242
- Fibrinogen, human, variants (Current problems in clinical biochemistry, vol. 14) 62(B)
- Fibrinolysis; antifibrinolytic drugs (Chemistry, pharmacology and clinical usage) 63(B)
- Fibroblastoid colony-forming cells; effect of platelet-derived growth factor and bone marrow-conditioned medium on the proliferation of human bone marrow-derived fibroblastoid colony-forming cells 189
- Fibronectin and cryoglobulinaemia 161
- Flow cytometry, practical 63(B)
- Folic acid; levels of iron, vitamin B₁₂, folic acid and their binding proteins during pregnancy 92
- Gene, v. Alpha globin gene
- Glucose-6-phosphate dehydrogenase; hypoglycaemia-induced haemolysis in glucose-6-phosphate dehydrogenase deficiency 227
- Glutathione-peroxidase of erythrocytes, inhibition by bromsulphalein 222
- Granulocyte macrophage colony growth inhibitor; T-derived colony-inhibiting activity: partial characterization and mechanism of action 195
- Haematology (A pathophysiological research) 61(B)
- Haematology, experimental, current methodology (Bibliotheca Haematologica, vol. 48) 62(B)
- Haematopoiesis, v. Blutbildung(B)
- Haematopoietic progenitor

- cells (CFU-GM and BFU-E); influence of peripheral blood admixture on the number of the haematopoietic progenitor cells in human bone marrow aspirates 70
- Haematopoietic stem cells (Hematology, vol. 2) 122(B)
- Haematopoietic stroma, v. Stromal cells
- Haemochromatosis, severe: the predominant clinical manifestation of congenital dyserythropoietic anaemia type 2 178
- Haemofiltration, arteriovenous, continuous (Proceedings on the international conference on continuous arteriovenous haemofiltration, 1984) 124(B)
- Haemoglobin, fetal, levels and splenic function in sickle cell disease 240
- ; reply 242
- Haemoglobin variant G^{Philadelphia}; linkage of the α^G Philadelphia locus in α -thalassaemia in the Cuban population 186
- Haemoglobinuria, paroxysmal, nocturnal, v. Paroxysmal nocturnal haemoglobinuria
- Haemoglobins, abnormal, and thalassaemia: methods and control I
- Haemolysis; hypoglycaemia-induced haemolysis in glucose-6-phosphate dehydrogenase deficiency 227
- ; immune haemolysis, amoxicillin-induced 230
- Haemolysis, heteroimmune, v. Anaemia, aplastic, severe
- Haemolytic anaemia, v. Anaemia, haemolytic
- Haemophagocytosis simulating malignant histiocytosis: a terminal event of the myelodysplastic syndrome 164
- Haemorrhagic disease; neonatal haemorrhage and vitamin K 121
- Haemostasis; human blood coagulation, haemostasis and thrombosis (3rd ed.) 122(B)
- Haemostatic mechanism and metastasis 63(B)
- Hairy cell leukaemia; scanning immunoelectron microscopy of hairy cell leukaemia 200
- Hairy cell leukaemia, emergency splenectomy 116
- Hematology (A pathophysiological research) 61(B)
- Hematology, experimental, current methodology (Bibliotheca Haematologica, vol. 48) 62(B)
- Hematopoietic stem cells (Hematology, vol. 2) 122(B)
- Hemofiltration, continuous, arteriovenous (Proceedings on the international conference on continuous arteriovenous hemofiltration, 1984) 124(B)
- Hemostatic mechanism and metastasis 63(B)
- Heteroimmune haemolysis, v. Anaemia, aplastic, severe
- Histiocytosis, malignant; haemophagocytosis simulating malignant histiocytosis: a terminal event of the myelodysplastic syndrome 164
- Hodgkin's disease*; increased prostaglandin E production in malignant lymphomas 132
- Hodgkin's disease* and hyperthyroidism 137
- Hodgkin, v. Non-Hodgkin's lymphoma*
- Human blood coagulation, haemostasis and thrombosis (3rd ed.) 122(B)
- Human cancer, v. Cancer, human(B)
- Human fibrinogen, v. Fibrinogen(B)
- Human T-cell leukaemia/lymphoma virus; a possible association between human T-cell leukaemia/lymphoma virus (type I) and B-cell chronic lymphocytic leukaemia in *Jamaica* 55
- Human tumours, v. Tumours, human(B)
- Hypertension, portal; myelofibrosis, splenomegaly and portal hypertension 45
- Hyperthyroidism and *Hodgkin's disease* 137
- Hypoglycaemia-induced haemolysis in glucose-6-phosphate dehydrogenase deficiency 227
- Hypopharynx; T cell lymphoma of the hypopharynx: report of a case studied with immunological technique 111
- Immune complexes and human cancer (Contemporary topics in immunobiology, vol. 15) 123(B)
- Immune haemolysis, amoxicillin-induced 230
- Immunity, infection and blood transfusion (Progress in clinical and biological research, vol. 182) 123(B)
- Immunobiology, advances: Blood cell antigens and bone marrow transplantation (Progress in clinical and biological research, vol. 149) 61(B)
- Immunoblastic lymphadenopathy; *Epstein-Barr* virus-positive primary brain lymphoma complicating immunoblastic lymphadenopathy 114
- Immunoblastic lymphoma; sequential appearance of immunoblastic lymphoma and acute nonlymphocytic leukaemia in a patient with angioimmunoblastic lymphadenopathy 175
- Immunoelectron scanning microscopy of hairy cell leukaemia 200
- Immunostaining; megakaryocytopoiesis in different forms of thrombocytosis and thrombocytopenia: identification of megakaryocyte precursors by immunostaining of intracytoplasmic factor-VIII-related antigen 208
- Immunosuppressive treatment, v. Immunoblastic lymphadenopathy
- Infection, immunity and blood transfusion (Progress in clinical and biological research, vol. 182) 123(B)
- Iron; levels of iron, vitamin B₁₂, folic acid and their binding proteins during pregnancy 92
- Iron deficiency anaemia; myeloperoxidase activity of polymorphonuclear leukocytes in iron deficiency anaemia and anaemia in chronic disorders 151
- ; red cell superoxide dismutase is increased in iron deficiency anaemia 218
- Iron overload, v. Haemochromatosis, severe
- Irradiation, v. Hyperthyroidism (*Hodgkin's disease*)
- Jamaica*; a possible association between human T-cell leukaemia/lymphoma virus (type I) and B-cell chronic lymphocytic leukaemia in *Jamaica* 55
- Kaposi's sarcoma* and chronic lymphocytic leukaemia, coexistence in the same lymph node 234
- Kidney in beta-thalassaemia major 60
- Knochenmark; Blut- und Knochenmarksmorphologie - Blutgerinnung (Ein Leitfa-den) (17. Aufl.) 63(B)
- Leukaemia (Recent results in cancer research, vol. 93) 64(B)
- Leukaemia, hairy cell leukaemia: scanning immunoelectron microscopy of hairy cell leukaemia 200
- Leukaemia, hairy cell leukaemia emergency splenectomy 116
- Leukaemia, lymphocytic, chronic; coexistence of *Kaposi's sarcoma* and chronic lymphocytic leukaemia in the same lymph node 234
- ; a possible association between human T-cell leukaemia/lymphoma virus (type I) and B-cell chronic lymphocytic leukaemia in *Jamaica* 55
- Leukaemia, lymphocytic, chronic, B cell type; poly(A)-polymerase activity in chronic lymphocytic leukaemia of the B cell type 31
- Leukaemia, lymphocytic, B-chronic; meningeal leukaemia complicating prolymphocytoid transformation of B-

- chronic lymphocytic leukaemia 205
- Leukaemia, mixed, v. Leukemia, myeloid, acute
- Leukaemia, myelogenous, chronic; Philadelphia-chromosome-negative chronic myelogenous leukaemia with incomplete trisomy 1q following chemotherapy for ovarian cancer 168
- ; presentation of extramedullary blast crisis 52
- Leukaemia, myeloid, acute; leukaemic myeloblasts expressing lymphoid markers 148
- Leukaemia, nonlymphocytic, acute, v. Lymphoma, immunoblastic
- Leukaemia nonlymphoid, acute; bone marrow transplantation in first remission 23
- Leukaemia, plasma cell leukaemia; favorable response to aggressive chemotherapy in a patient with primary plasma cell leukaemia 49
- Leukaemia, polyclonal, v. Leukaemia, lymphocytic, B-chronic
- Leukaemias and lymphomas (Contemporary issues in clinical oncology) 123(B)
- Leukaemic myeloblasts expressing lymphoid markers 148
- Leukemia (Recent results in cancer research, vol. 93) 64(B)
- Leukemias and lymphomas (Contemporary issues in clinical oncology) 123(B)
- Leukocytes; pattern of leukocytes in the blood of healthy African neonates 104
- Leukocytes, polymorphonuclear; myeloperoxidase activity of polymorphonuclear leukocytes in iron deficiency anaemia and anaemia of chronic disorders 151
- Lithium, effects on platelet count 118
- ; modifications in the phagocytosis of human neutrophils induced by vinblastine and cytochalasin B: the effects of lithium 81
- Lymph node; coexistence of Kaposi's sarcoma and chronic lymphocytic leukaemia in the same lymph node 234
- Lymph nodes, v. Blast crisis, extramedullary
- Lymphadenopathy; Epstein-Barr virus-positive primary brain lymphoma complicating immunoblastic lymphadenopathy 114
- Lymphadenopathy, angioimmunoblastic; sequential appearance of immunoblastic lymphoma and acute nonlymphocytic leukaemia in a patient with angioimmunoblastic lymphadenopathy 175
- ; severe pancytopenia due to marked marrow fibrosis associated with angioimmunoblastic lymphadenopathy 43
- Lymphocyte subpopulations in homozygous sickle cell anaemia 10
- Lymphocytes, v. B cell..., T cell lymphoma, T-derived...
- Lymphocytosis, persistent: an unusual feature in sarcoidosis 184
- Lymphoid markers; leukaemic myeloblasts expressing lymphoid markers 148
- Lymphoid nodules and nodular lymphoid hyperplasia in bone marrow biopsies 19
- Lymphokine-mediated regulation of CFU-c growth, v. T-derived colony inhibiting activity
- Lymphoma, immunoblastic; sequential appearance of immunoblastic lymphoma and acute nonlymphocytic leukaemia in a patient with angioimmunoblastic lymphadenopathy 175
- Lymphoma malignant; ultrastructure of skin window cells in malignant lymphoma 35
- Lymphoma, T cell lymphoma of the hypopharynx: report of a case studied with immunological technique 111
- Lymphoma, v. B-cell immunoblastic non-Hodgkin's lymphoma
- Lymphomas and leukaemias (Contemporary issues in clinical oncology) 123(B)
- Lymphomas, malignant; increased prostaglandin E production in malignant lymphomas 132
- Lymphomas; prognostic factors in non-Hodgkin's lymphomas 86
- Lymphome: Chromosomenaberrationen bei Lymphomen und lymphomähnlichen Erkrankungen 124(B)
- Macrophages, v. Lymphoma, malignant
- Mast cell disease; disodium cromoglycate in the treatment of systemic mastocytosis involving only bone 108
- Mediterranean Society of therapy, second congress, (Istanbul, Turkey, July 20-25, 1986) 243
- Megakaryocytopoiesis in different forms of thrombocytosis and thrombocytopenia: identification of megakaryocyte precursors by immunostaining of intracytoplasmic factor-VIII-related antigen 208
- Meningeal leukaemia complicating polyclonal transformation of B-chronic lymphocytic leukaemia 205
- Metastasis; hemostatic mechanism and metastasis 63(B)
- Methodology; current methodology in experimental hematology (Bibliotheca Haematologica, vol. 48) 62(B)
- Methods, v. Flow cytometry (B). Immunoelectron scanning microscopy, Immunostaining
- Microanalysis; X-ray microanalysis of platelets in patients with chronic renal failure 213
- Monoclonal antibodies, v. Immunoelectron scanning microscopy, Lymphocyte subpopulations
- Mouse, genetically anaemic strains; stromal cells (CFU-F) in normal and genetically anaemic mouse strains 75
- Multiple myeloma, v. Myeloma, multiple, nonsecretory
- Myelodysplastic syndrome; hemophagocytosis simulating malignant histiocytosis: a terminal event of the myelodysplastic syndrome 164
- ; Paroxysmal nocturnal haemoglobinuria
- Myelofibrosis, splenomegaly and portal hypertension 45
- Myeloid markers, v. Lymphoid markers
- Myeloma, multiple, nonsecretory (Presenting findings, clinical course and prognosis) 27
- Myeloperoxidase activity of polymorphonuclear leukocytes in iron deficiency anaemia and anaemia of chronic disorders 151
- Myocardial infarction and anticoagulants (A reappraisal) 64(B)
- Neonatal haemorrhage and vitamin K 121
- Neonates, African, limits of the physiological anaemia 99
- Neonates, African, healthy, pattern of leukocytes in their blood 104
- Neutrophils, human; modifications in the phagocytosis of human neutrophils induced by vinblastine and cytochalasin B: the effect of lithium 81
- Non-Hodgkin's lymphoma, prognostic factors 86
- , v. Hodgkin's disease
- Oncogenes; consistent chromosomal aberrations and oncogenes in human tumours (Cancer surveys, vol. 3. no. 3) 122(B)
- Oral anticoagulation; laboratory control, optimal therapeutic ranges and therapeutic quality control in oral anticoagulation (Review) 126
- Osteosclerosis, v. Mast cell disease
- Ovarian cancer; Philadelphia-chromosome-negative chronic myelogenous leukaemia with incomplete trisomy 1q following chemotherapy for ovarian cancer 168
- Oxprenolol hydrochloride, v. Lymphadenopathy, angioimmunoblastic

- Pancytopenia, severe, due to marked marrow fibrosis associated with angioimmunoblastic lymphadenopathy 43
- Paroxysmal nocturnal haemoglobinuria; refractory anaemia with excess of blasts as a terminal evolution of paroxysmal nocturnal haemoglobinuria (A case report with chromosomal analysis) 181
- Peripheral blood admixture, influence on the number of hematopoietic progenitor cells (CFU-GM and BFU-E) in human bone marrow aspirates 70
- Peroxidase, antiperoxidase method, v. Factor-VIII-related-antigen
- Phagocyte function, biological and clinical aspects, international congress, Pavia, Italy, September 7-10, 1986 243
- Phagocytosis; modifications in the phagocytosis of human neutrophils induced by vinblastine and cytochalasin B: the effects of lithium 81
- Pharynx, v. Hypopharynx
- Philadelphia chromosome and B-cell malignancy-associated chromosomal aberrations in non-leukaemic immunoblastic B-cell lymphoma 171
- Philadelphia chromosome; linkage of the α^G -Philadelphia locus to α -thalassaemia in the Cuban population 186
- Philadelphia-chromosome-negative chronic myelogenous leukaemia with incomplete trisomy 1q following chemotherapy for ovarian cancer 168
- Philadelphia locus; linkage of the α^G -Philadelphia locus to α -thalassaemia in the Cuban population 186
- Plasmapheresis, therapeutic (IV) (Proceedings of the 4th annual symposium on therapeutic plasmapheresis, 1984) 123(B)
- Platelet count, effects of lithium 118
- Platelet counts and thyroid function, relationship 58
- Platelet-derived growth factor and bone marrow-conditioned medium, effect on the proliferation of human bone marrow-derived fibroblastoid colony-forming cells 189
- Platelets; X-ray microanalysis of platelets in patients with chronic renal failure 213
- Polymerase, v. Poly(A)-polymerase
- Poly(A)-polymerase activity in chronic lymphocytic leukaemia of the B cell type 31
- Portal hypertension, v. Hypertension, portal
- Pregnancy; coagulation problems during pregnancy (Current reviews in obstetrics and gynaecology, vol. 10) 62(B)
- ; levels of iron, vitamin B₁₂, and folic acid and their binding protein during pregnancy 92
- Prognostic factors in non-Hodgkin's lymphoma 86
- Proliferation of human bone marrow-derived fibroblastoid colony-forming cells, effect of platelet-derived growth factor and bone marrow-conditioned medium 189
- Prostaglandin E production, increased, in malignant lymphomas 132
- Purpura, thrombocytopenic, idiopathic: danazol for the treatment 97
- ; danazol in idiopathic thrombocytopenic purpura 120
- Red blood cells as carriers for drugs (Proceedings of the first international conference on red cell carriers for disseminating chemicals via the circulatory system, 1984) (Bibliotheca Haematologica, vol. 51) 64(B)
- Red cell superoxide dismutase is increased in iron deficiency anaemia 218
- Refractory anaemia, v. Anaemia, refractory
- Regulationsmodelle und ihre Anwendung auf die Blutbildung (Medizinische Informatik und Statistik, Bd. 48) 61(B)
- Renal failure; platelet X-ray microanalysis in patients with chronic renal failure 213
- Sarcoidosis; persistent lymphocytosis: an unusual feature in sarcoidosis 184
- Sarcoma, v. Kaposi's sarcoma
- Saudi Arabia; clinical manifestation and laboratory findings of sickle cell anaemia in association with α -thalassaemia in Saudi Arabia 155
- Scanning immunoelectron microscopy of hairy cell leukaemia 200
- Serum sickness, v. Anti-thymocyte globulin
- Sickle cell anaemia; clinical manifestation and laboratory findings of sickle cell anaemia in association with α -thalassaemia in Saudi Arabia 155
- ; homozygous, lymphocyte subpopulations 10
- Sickle cell disease; erythropoietin response to anaemia in children with sickle cell disease and Fanconi's anaemia 6
- Sickle cell disease; fetal haemoglobin levels and splenic function in sickle cell disease 240
- ; reply 242
- Skin window technique; ultrastructure of skin window cells in malignant lymphoma 35
- Splenectomy; emergency splenectomy in hairy cell leukaemia 116
- Splenic function, v. Sickle cell disease
- Splenomegaly, myelofibrosis and portal hypertension 45
- Staining, v. Immunostaining
- Stem cells, hematopoietic (Hematology, vol. 2) 122(B)
- Stromal cells; functional changes in marrow stromal cells in aplastic anaemia 65
- Stromal cells (CFU-F) in normal and genetically anaemic mouse strains 80
- T cell lymphoma of the hypopharynx: report of a case studied with immunological technique 111
- T-derived colony-inhibiting activity: partial characterization and mechanism of action 195
- Thalassaemia; abnormal haemoglobins and thalassaemia: methods and control 1
- Thalassaemia(alpha); clinical manifestation and laboratory findings of sickle cell anaemia in association with α -thalassaemia in Saudi Arabia 155
- Thalassaemia (alpha); linkage of the α^G Philadelphia locus to α -thalassaemia in the Cuban population 186
- Thalassaemia(beta); alpha globin gene triplication in severe heterozygous beta thalassaemia 236
- ; kidney in beta-thalassaemia major 60
- Therapeutic plasmapheresis (IV) (Proceedings of the 4th annual symposium on therapeutic plasmapheresis, 1984) 123(B)
- Therapy; laboratory control, optimal therapeutic ranges and therapeutic quality control in oral anticoagulation (Review) 125
- Therapy, v. Antilymphocytic globulin; Anti-thymocyte globulin; Chemotherapy; Danazol; Hairy cell leukaemia; Immunosuppressive treatment, Leukaemia, non-lymphoid, acute; Mast cell disease; Thiotepe
- Therapy, v. Mediterranean Society
- Thiotepe, v. Ovarian cancer
- Thrombocytes, v. Platelet(s)
- Thrombocytopenia; megakaryocytopoiesis in different forms of thrombocytosis and thrombocytopenia: identification of megakaryocyte precursors by immunostaining of intracytoplasmic factor-VIII-related antigen 208
- Thrombocytopenic purpura, idiopathic, danazol for the treatment 97
- Thrombocytosis; megakaryocytopoiesis in different

- forms of thrombocytosis and thrombocytopenia: Identification of megakaryocyte precursors by immunostaining of intracytoplasmic factor-VIII-related antigen 208
- Thrombosis; human blood coagulation, haemostasis and thrombosis (3rd ed.) 122(B)
- Thymocytes, anti-thymocyte globulin; treatment of severe aplastic anaemia with anti-thymocyte globulin 144
- Thymoma; autoimmune haemolytic anaemia as the presenting manifestation of malignant thymoma 40
- Thyroid function and platelet counts, relationship 58
- Thyroid, v. Hyperthyroidism
- Transfusion, v. Blood transfusion(B)
- Transplantation of bone marrow for acute nonlymphoid leukaemia in first remission 23
- Transplantation; bone marrow transplantation, v. Immunobiology(B)
- Triple alpha globin gene, v. Alpha globin gene
- Trisomy 1q, incomplete, v. Leukaemia, myelogenous, chronic
- Tumours, human; consistent chromosomal-aberrations and oncogenes in human tumours (Cancer surveys, vol. 3. no. 3) 122(B)
- Ultrastructure of skin window cells in malignant lymphoma 35
- Ultrastructure, v. Haemophagocytosis, Hairy cell leukaemia, T cell lymphoma
- Variants of human fibrinogen (Current problems in clinical biochemistry, vol. 14) 62(B)
- Vinblastine; modifications in the phagocytosis of human neutrophils induced by vinblastine and cytochalasin B: the effect of lithium 81
- Virus, v. *Epstein-Barr* virus, Human T-cell leukaemia/lymphoma virus (type I)
- Vitamin B₁₂; levels of iron, vitamin B₁₂, folic acid and their binding proteins during pregnancy 92
- Vitamin K; neonatal haemorrhage and vitamin K 121
- X-ray microanalysis of platelets in patients with chronic renal failure 213
