

Register rerum ad Vol. 9

B = Buchbesprechung – Book Review – Livre nouveau

R = Referat – Review – Revue

- A**ccelerators, 268 (R)
 Acetylcholinesterase activity of erythrocytes, platelets and plasma in different animal species, 115
 ACTH; effect of ACTH and cortisone on haemorrhagic diathesis with thrombocytopenia, 107
 –, v. Cortison
 ACTH and cortisone, blood and bone marrow after administration, 237
 ACTH tests, v. Eosinophils
 Adaptation syndrome, story, 135 (B)
 –, cf. Stress
 Adaptive hormones; letter to the editor, 136
 –, cf. Stress
 Addisonian pernicious anaemia, v. Anaemia, pernicious
 Adrenaline tests, v. Eosinophils
 Agranulocytose; Butazolidin und Ir-gapyrin in ihren Beziehungen zur Agranulocytose, 354
 Alloxan, v. Zink
 Anaemia, haemolytic and immunology, 67 (R)
 Anaemia, pernicious; relative nature of the deficiency of the intrinsic factor of *Castle* in pernicious anaemia, 370
 Anaemia, pernicious, encephalographic and psychologic changes, 201
 Anaemia, v. Anémie, Erythrocytic hypoplasia, Iron turnover
 Anämien, hämolytische, symptomatische, Therapie, 208
 Anémie des azotémies chroniques, physiopathologie des érythroblastes, 97
 Animal species, v. Acetylcholinesterase, Moelle osscuse
 Ankylostomiasis, Serum- und Erythrozytenzink, 302
 Anticoagulant therapy, 323 (R)
 Anticoagulants, spontaneous, 320 (R)
 Autoradiographic study on the uptake of S³⁵-labelled sodium sulphate in the mast cells, 273
 Azotémies chroniques, v. Erythroblastes
Balacnoptera musculus, v. Whale
 Blood coagulation, physiology and pathology, review of the literature of 1952, 257 ff., 311 ff. (R)
 Blood coagulation, v. Coagulation
 Blood formation, B-Vitamins, 135 (B)
 Blood-forming areas, v. Erythroblasts
 Blood grouping, practical methods, manual of immuno-haematology, 200 (B)
 Blood groups, v. Blutgruppenbestimmung, Groupes sanguins
 Blood standard values, 335 (B)
 Bluteiweißkörper des Menschen, 72 (B)
 Blutgerinnung, Bedeutung der Lipide (Einfluß der Diaminophosphatide und deren Spaltungsprodukt Sphingosin), 237
 Blutgruppenbestimmung und Bluttransfusion, 199 (B)
 Blutkrankheiten, 272 (B)
 Bluttransfusion und Blutgruppenbestimmung, 199 (B)
 Blutzellen, cytochemische Untersuchungen mittels Perchlorsäure, 47
 Bone marrow, v. ACTH, Moelle osscuse
 Butazolidin, v. Agranulocytose
 B-Vitamins for blood formation, 135 (B)
Calcium (Factor IV), 268 (R)
Castle factor, v. Anaemia, pernicious
 Cerebrum, v. Anaemia, pernicious
Cetaceae, v. Whale
 Chick embryo, v. Erythroblasts

- Cholinesterase, v. Acetylcholinesterase
 Coagulation of blood, 67 (R)
 Coagulation of blood, v. Blood coagulation, Blutgerinnung, Haemorrhagic diathesis, Prothrombinaktivierung, Thrombocytopenia
 Cobalt therapy, v. Erythrocytic hypoplasia
 Colchicin, v. Erythro- und Leukopoese
 Corrigendum, 200
 Cortison und ACTH, Einfluß auf die Phagozytose der Leukozyten und Makrophagen, 277
 Cortisonc, v. ACTH
 Cytochemische Untersuchungen von Blutzellen mittels Perchlorsäure, 47
 Cytochimie, v. Érythroblaste
 Diabetogene Substanzen, v. Zink
 Diaminophosphatide, v. Blutgerinnung
 Diphenylthiocarbazon, v. Zink
 Einschlusskörperchen, siderophile, in den Zellen des erythropoetischen Systems, 137
 Eisen, v. Einschlusskörperchen, Iron turnover
 Electrophoretic studies on the protein distribution in the serum of multiple myeloma patients, 19
 Elektronenmikroskop, v. Granulocytes
 Embryonic erythroblasts, v. Erythroblasts
 Encephalographic and psychologic changes in pernicious anaemia, 201
 Eosinophils; direct counting of circulating eosinophils (Value of the method in ACTH and adrenaline tests), 121
 Erratum, 200
 Érythroblaste; recherches cytochimiques et expérimentales sur les relations de l'hémoglobinogénèse avec la synthèse des protéines dans l'érythroblaste, 220
 Érythroblastes; physiopathologie des érythroblastes dans l'anémie des azotémies chroniques, 97
 Erythroblasts; studies on the proliferation rhythm of primitive embryonic erythroblasts, 1
 Erythrocyten junger Säuglinge, Aktivität der reduzierenden Fermentsysteme, 346
 Erythrocytenzink, v. Zink
 Erythrocytes; red blood cell diameter in blue whale and humpback whale, 54
 Erythrocytes, v. Acetylcholinesterase
 Erythrocytic hypoplasia, acquired, recovery during cobalt therapy, 153
 Erythro- und Leukopoese, Beeinflussung durch die Mitosegifte Colchicin und Xanthopterin in vitro, 185
 Erythropoese, v. Érythroblastes
 Erythropoetisches System, v. Einschlusskörperchen
 Factor I, 261 (R)
 Factor II, 263 (R)
 Factor III, 267 (R)
 Factor IV, 268 (R)
 Factor V (and VI), 268 (R)
 Factor V, v. Prothrombinaktivierung
 Factor VII, 270 (R)
 -, v. Prothrombinaktivierung
 Fe⁶⁰, v. Iron turnover
 Fer, v. Eisen
 Fermentsysteme, reduzierende, Aktivität in den Erythrozyten junger Säuglinge, 346
 Ferments, v. Acetylcholinesterase
 Fibrin, 261 (R)
 Fibrinogen (Factor I), 261 (R)
 Fibrinolysis, 261 (R)
 Foundation; Lenore Schwartz Foundation, v. Leukaemia abstracts
 Glomerulonephritis, chronische, v. Érythroblastes
 Granulocytes, morphologie examinée au moyen du microscope électronique, 307
 Granulocytes, v. Leukaemic granulocytes
 Groupes sanguins du système Rh. Applications et étude pratique, 335 (B)
 Haematology; fourth congress of the international society of haematology, 56 ff. (R)
 Haematopoiesis, effects of radiation, 63 (R)
 Haematopoiesis, v. Hormones, Neuroendocrine
 Hämoglobingenese, v. Hémoglobino-génèse
 Hämoglobinstoffwechsel, v. Einschlusskörperchen
 Hämolyse, v. Zink
 Haemophilia, 56 (R), 271 (R)

- Haemorrhagic diathesis with thrombocytopenia, effect of ACTH and cortisone, 107
- Haemorrhagic diathesis, v. Mononucleosis
- Haemostasis, v. Neuroendocrine
- Hématopoièse, v. Hormones
- Hémoglobinogénèse; recherches cytochimiques et expérimentales sur les relations de l'hémoglobinogénèse avec la synthèse des protéines dans l'érythroblaste, 220
- Heparin and heparin-like substances, 323 (R)
- Heparin, v. Mast cells
- Heredopathien, v. Sickling
- Histamine; clinical investigations on the histamine of leukaemic granulocytes, 171
- Histochemic, v. Cytochemische Untersuchungen, Cytochimic
- Histochemistry and ultrastructure of the cells, 59 (R)
- Hormones; régulation hormonale de l'utilisation hématopoïétique des protéines, 29 (Corrig. 200)
- Hormones, v. ACTH, Adaptive, Neuroendocrine
- Immuno-haematology, v. Blood grouping
- Immunology and haemolytic anaemia, 67 (R)
- International society of haematology, v. Haematology
- Intrinsic factor, v. Anaemia, pernicious
- Irgapyrin, v. Agranulocytose
- Iron turnover abnormalities in patients having anaemia: Serial blood and *in vivo* tissue studies with Fe⁵⁹, 73
-, cf. Einschlusskörperchen
- Isotopes, v. Iron turnover, Mast cells
- Italia, v. Tumoren
- Jews, oriental, sickling, 193
- Journal, new; Leukaemic abstracts, 272
- Kobalt, v. Cobalt
- Letter to the editor, 136
- Leukaemia abstracts, new journal, 272
- Leukaemia, etiology and treatment, 60 (R)
- Leukaemic granulocytes, clinical investigations on the histamine, 171
- Leukocyten, v. Cortison
- Leukopenia, v. Thrombocytopenia
- Leukopenic factor, v. Thrombocytopenia
- Leukopoesc, v. Erythro- und Leukopoesc
- Libri, 72 (B), 135 (B), 199 ff. (B), 272 (B), 335 ff. (B)
- Lipoide, Bedeutung für die Blutgerinnung (Einfluß der Diaminophosphatide und deren Spaltungsprodukt Sphingosin), 237
- Makrophagen, v. Cortison
- Man, v. Bluteiweißkörper
- Mast cells; autoradiographic study on the uptake of S³⁵-labelled sodium sulphate in the mast cells, 273
- Megaptera nodosa*, v. Whale
- Methode, v. Blood grouping, Bluteiweißkörper, Blutgruppenbestimmung, Blutzellen, Eosinophils, Groupes sanguins, Moelle osseuse
- Mitosegifte, v. Erythro- und Leukopoesc
- Moelle osseuse; note technique concernant l'examen de la moelle osseuse chez des petits animaux, 388
- Mononucleosis, infectious, with thrombopenic haemorrhagic diathesis, 253
- Myeloma, multiple; electrophoretic studies on the protein distribution in the serum of multiple myeloma patients, 19
- Nephritis, chronische, v. Erythroblasten
- Neuroendocrine regulation of haematopoiesis and haemostasis, 57 (R)
- Pathologische Anatomie, Atlas, 336 (B)
- Perchlorsäure, v. Blutzellen
- Phagozytose, v. Cortison
- Plasma, v. Acetylcholinesterase
- Plasmaproteine, v. Bluteiweißkörper
- Platelets, 311 (R)
- Platelets, v. Acetylcholinesterase
- Polycythaemia, 66 (R)
- Protéines, synthèse dans l'érythroblaste, v. Erythroblaste
- Proteins, v. Bluteiweißkörper, Electrophoretic studies, Hormones
- Prothrombin (Factor II), 263 (R)
- Prothrombinaktivierung, quantitative Beziehungen zwischen den Gerinnungsfaktoren V und VII, 380

- Psychologic changes, v. Anæmia pernicious
 Purpura, thrombocytopenische, v. ACTH
 Radiation, effects on hæmatopoiesis, 63 (R)
 Radioactive isotopes, v. Isotopes
 Red blood cells, v. Erythrocytes
 Relata, 257 ff., 311 ff.
 Rh-factor, v. Groupes sanguins
 Ribonucléique, acide -, v. Érythroblaste
 Ribonukleinsäure, v. Blutzellen
 S³⁵, v. Mast cells
 Säuglinge, junge, v. Fermentsysteme
 Serum proteins, v. Electrophoretic studies
 Serumzink, v. Zink
 Sick cell disease, v. Sickling
 Sickling in oriental jews, 193
 Siderocyten, v. Einschlußkörperchen
 Siderophile Einschlußkörperchen, v. Einschlußkörperchen
 Societates, 56 ff. (R)
 Sphingosin, v. Blutgerinnung
 Steroide, v. ACTH
 Stress, v. Adaptation syndrome
 -; letter to the editor, 136
 -, second annual report, 135 (B)
 Sulphur, v. Mast cells
 Therapy, anticoagulant, 323, 324 (R)
 Therapy, v. Anämien, Cobalt, Leukaemia
 Thrombin, 263 (R)
 Thrombocytopenia and Leukopenia, demonstration of thrombocytopenic and leukopenic factor in the blood, 337
 Thrombocytopenia, v. ACTH
 Thrombocytopenic factor, v. Thrombocytopenia
 Thrombopenic hæmorrhagic diathesis in infectious mononucleosis, 253
 Thromboplastin (Factor III), 267 (R)
 Thrombosis, 331 (R)
 Transfusion, v. Bluttransfusion
 Tumoren; Lega italiana per la lotta contro i tumori, 336
 -, v. Myeloma
 Ultrastructure, v. Histochemistry
 Varia, 136, 272, 336
 Vitamin K, 319 (R)
 Vitamins, v. B-Vitamins
 Walfisch (Blauwal und Humpback-Wal), v. Whale
 Whale (blue whale and humpback whale), red blood cell diameter, 54
 Xanthopterin, v. Erythro- und Leukopocse
 Zink; Erythrocytenzink und die hämolyisierende Wirkung verschiedener diabetogen wirksamer Verbindungen, 289
 Zink; Serum- und Erythrocytenzink bei Ankylostomiasis, 302
