

Index rerum

- A-V fistula 294
- Acetylcholine 185
- Acid glycosaminoglycans 129
- Adrenergic receptors 65
- Adjustments in vasodilations 185
- Aneurysm 294
- Angioorganopathy 50
- Aorta 270
- Aorta structure 10
- Aorto-coronary bypass 221
- Arterial insufficiency 152
- Arterial occlusion 198, 326
- Arteriosclerotic vascular diseases 318
- Autonomic myogenic reaction 233
- Autoregulation 15

- Bifurcation 1
- Blood capillaries 256, 264
- Blood flow measurement 152
- Blood pressure 337

- Capillary filtration coefficient 198
- Carotis 274
- Chondroitin sulfate 129
- Collateral vessels 326
- Collateralisation 24
- Conductivity measurements 214
- Coumarin 288
- Cross circulation 337

- Deoxyribonucleic acid 76
- Dermatan sulfate 129
- Diabetes mellitus 50
- Dibenamine 15
- Dibenzylamine 15
- Duration of vasodilation 24

- Electrocardiographic examinations 221
- Electromyography 50
- Epinephrine 65
- Equation of state 256

- Escape phenomenon 233
- Experimental and clinical 214
- Experimental myocardial infarction 221
- Experimental venous thrombosis 93

- Fetus 270
- Fibrinogen 173
- Filtration 256, 264
- Flow 337

- Glycolytic enzymes 31

- Heart valves 129
- Hemodynamics 1
- Heparan sulfate 129
- Hepatic artery 15
- High-energy phosphates 76
- Histochemistry 142
- Histiocytes 101
- Hyperlipoproteinemia 318
- Hypertension 152

- Impedance 274
- Inflammation 93
- Intra- and extracapillary forces 256
- Intraarterial infusion 24
- Intracellular cations 76
- Ischemic heart disease 221
- Isoproterenol 65, 85

- Leiomyomatous tumors 310
- Liver blood flow 15, 65
- Local 'borrowing-lending' phenomenon 24
- Lower extremity 142
- Lymph vessels 288
- Lymphangiography 142
- Lymphatic Sisyphos 288
- Lymphedema 142
- Lymphostasis 101

- Metabolic factor 326
 Microvasculature 248
 Model 264
 Muscular exercise 198

 Nervous stimulation 233
 Neuropathy 50
N-Ethylmaleinimid 274
 Non-suture technique 221
 Noradrenaline 233

 Oedema 101, 214
 Oxygen consumption 76

 Papaverine 15
 Peripheral circulation 124
 Pituitary adenoma 299
 Pituitary gland 299
 Platelets 173
 Portal vein 15
 Prefascial lymph vessels 142
 Propranolol 65, 185
 Protein carrier function 248
 Protein permeability 248
 Proteinuria 173
 Pulmonary embolism 164

 Reabsorption 256, 264
 Reactive hyperemia 15, 233
 Recurrent erysipelas 142
 larization of dog's heart muscle
 221
 Rhythmic activity 76

 Sarcoplasmic proteins 31
 Scanning electron microscope 10

 Sheep 270
 Small bowel tumors 310
 Sotalol 65
 Starch-gel electrophoresis 31
 Syncardial massage 124

 Thrombosis 164
 Toxaemia 173
 Tubocurarin 337

 Ultrastructure 299

 Vasa vasorum, media 270
 Vascular diseases 124
 Vascular escape phenomenon 185
 Vascular lesions 299
 Vascular muscle activity 274
 Vascular reactivity 124
 Vascular smooth muscle 76
 Vasoactive substances 337
 Vasodilatation 24
 Vasodilating substances 198
 Venous occlusion plethysmography 24
 Vertebrate smooth muscle 31
 Vessels 299
 Vessel wall aging 248
 Visceral angiography 310
 Vitamin B 288
 Vitamins 101

 Work 326

 Zone of influence 1

¹²⁵I-Fibrinogen uptake test 93
¹³³Xe 152
