# Common Principles in the Neuroethology of Acoustic and Electric Communication

Proceedings of a Symposium held at the University of  
Texas at Austin on October 18–19, 1985

Guest Editors:

W. Wilczynski, Austin, Tex.

H.H. Zakon, Austin, Tex.

G.D. Pollak, Austin, Tex.

57 figures, 6 tables. 1986

# Contents

Introduction	
Zakon, H.H.; Wilczynski, W.; Pollak, G.D. . . . .	5
Steroid-Sensitive Neuroeffector Pathways for Sonic and Electric Communication in Fish	
Bass, A.H. . . . .	7
Sexual Dimorphisms in the Neural Vocal Control System in Song Birds: Ontogeny and Phylogeny	
Arnold, A.P.; Bottjer, S.W.; Brenowitz, E.A.; Nordeen, E.J.; Nordeen, K.W. . . . .	22
Environmental Influences on Acoustic and Electric Animal Communication	
Brenowitz, E.A. . . . .	32
Temporal Structure of Non-Propagated Electric Communication Signals	
Hopkins, C.D. . . . .	43
Jamming Avoidance in Electric Fish and Frogs: Strategies of Signal Oscillator Timing	
Zelick, R. . . . .	60
Factors Influencing the Evolution of Acoustic Communication: Biological Constraints	
Ryan, M.J. . . . .	70
Sexual Differences in Neural Tuning and Their Effect on Active Space	
Wilczynski, W. . . . .	83
Speculations on the Role of Frequency in Sound Localization	
Fuzessery, Z.M. . . . .	95
Processing of Acoustic Temporal Patterns in Barn Owls and Echolocating Bats: Similar Mechanisms for the Generation of Neural Place Representations of Auditory Space	
Sullivan, W.E. . . . .	109
Time Coding in Electric Fish and Barn Owls	
Carr, C.E. . . . .	122
A Temporal-Processing Mechanism for all Species?	
Rose, G. . . . .	134
Some Principles in the Brain Analysis of Important Signals: Mapping and Stimulus Recognition	
Bullock, T.H. . . . .	145
