Drug Dosage

The authors and the publisher have exerted every effort to ensure that drug selection and dosage set forth in this text are in accord with current recommendations and practice at the time of publication. However, in view of ongoing research, changes in government regulations, and the constant flow of information relating to drug therapy and drug reactions, the reader is urged to check the package insert for each drug for any change in indications and dosage and for added warnings and precautions. This is particularly important when the recommended agent is a new and/or infrequently employed drug.

Contents

- 283 Preface: From Basic Uniformity to Diversity in Cortical Organization**
Preuss, T.M. (New Iberia, La.)
- 287 Taking the Measure of Diversity: Comparative Alternatives to the Model-Animal Paradigm in Cortical Neuroscience**
Preuss, T.M. (New Iberia, La.)
- 300 Neurochemical and Cellular Specializations in the Mammalian Neocortex Reflect Phylogenetic Relationships: Evidence from Primates, Cetaceans, and Artiodactyls**
Hof, P.R.; Glezer, I.I.; Nimchinsky, E.A. (New York, N.Y.); Erwin, J.M. (Rockville, Md.)
- 311 Cortical Organization in Insectivora: The Parallel Evolution of the Sensory Periphery and the Brain**
Catania, K.C. (Nashville, Tenn.)
- 322 Arealization of the Neocortex in Mammals: Genetic and Epigenetic Contributions to the Phenotype**
Krubitzer, L.; Huffman, K.J. (Davis, Calif.)
- 336 Neurogenesis and the Evolution of Cortical Diversity: Mode, Tempo, and Partitioning during Development and Persistence in Adulthood**
Kornack, D.R. (Rochester, N.Y.)
- 345 Subject Index Vol. 55, No. 6, 2000**
- 347 Author Index Vol. 55, 2000**
- 348 Subject Index Vol. 55, 2000**
- after **348 Contents Vol. 55, 2000**
