Focus: Familial Breast Cancer – Secondary and Tertiary Prevention

Coordination: Schmutzler, R.K. (Cologne)

Editorial

- 6 New Avenues in Secondary and Tertiary Prevention of Breast Cancer**
Schmutzler, R.K. (Cologne)

Review Articles

- 7 Breast Cancer Risks and Risk Prediction Models**
Engel, C. (Leipzig); Fischer, C. (Heidelberg)
- 13 Intensified Surveillance for Early Detection of Breast Cancer in High-Risk Patients**
Bick, U. (Berlin)
- 22 Genotype/Phenotype Correlations in Patients with Hereditary Breast Cancer**
Markiefka, B.; Wittersheim, M.; Büttner, R. (Cologne)
- 27 Familial Breast Cancer – Targeted Therapy in Secondary and Tertiary Prevention**
Kast, K. (Dresden); Riehm, K. (Cologne)

Original Articles

- 33 Imaging-Histological Discordance after Sonographically Guided Percutaneous Breast Core Biopsy**
Soyder, A.; Taskin, F. (Aydin); Ozbas, S. (Ankara)
- 39 Patients' Perspective on Day Case Breast Surgery**
Athwal, R.; Dakka, M.; Appleton, D.; Harries, S.; Clarke, D.; Jones, L. (Warwick)

Review Article

- 44 Tumor Bed Boost Integration during Whole Breast Radiotherapy: A Review of the Current Evidence**
Cante, D. (Ivrea); Franco, P. (Turin); Sciacero, P.; Girelli, G.; La Porta, M.; Ricardi, U. (Ivrea)

Novel Insights from Clinical Practice

- 51 Chronic Granulomatous Inflammation of the Breast as a First Clinical Manifestation of Primary Sarcoidosis**
Valković Zujic, P.; Grebić, D.; Valenčić, L. (Rijeka)

Congress Reports

- 55 BCY 2 – Second Breast Cancer in Young Women Conference
COMBATing Breast Cancer 2014**

Expert Discussion

- 61 News from the San Antonio Breast Cancer Symposium 2014**
Chair: Wuerstlein, R. (Munich)
Participants: Gennari, A. (Genoa); Liedtke, C. (Lübeck); Marmé, F. (Heidelberg)

- 66 Reports
70 PharmaNews
72 Meetings and Conferences
75 Guidelines for Authors
76 Contents of Forthcoming Issues

Publication Data: Volume 10, 2015 of 'BREASTCARE' appears with 6 issues.

Copyright: © 2015 by S. Karger Verlag für Medizin und Naturwissenschaften GmbH, Freiburg (Germany). All rights reserved. No part of the journal may be reproduced in any form without the written permission of the publisher. This includes digitalisation and any further electronic computing, like saving, copying, printing or electronic transmission of digitalized material from this journal (online or offline). Authorization to photocopy items for internal or personal use of specific clients is granted by Karger.

Photocopying: This journal has been registered with the Copyright Clearance Center (CCC), as indicated by the code appearing on the first page of each article. For readers in the US, this code signals consent for copying of articles for personal or internal use, or for the personal or internal use of specific clients, provided that the stated fee is paid per copy directly to Copyright Clearance Center Inc., 222 Rosewood Drive, Danvers, MA 01923 (USA).

A copy of the first page of the article must accompany payment. Consent does not extend to copying for general distribution, for promotion, for creating new works, or for resale. In these cases, specific written permission must be obtained from the copyright owner, S. Karger GmbH, Wilhelmstraße 20A, 79098 Freiburg (Germany).

Disclaimer: The statements and data contained in this publication are solely those of the individual authors and contributors and not of the publisher and the editor(s). The appearance of advertisements in the journal is not a warranty, endorsement, or approval of the products or services advertised or of their effectiveness, quality or safety. The publisher and the editor(s) disclaim responsibility for any injury to persons or property resulting from any ideas, methods, instructions or products referred to in the content or advertisements.

Distribution and Subscription: Karger offers three types of subscription: Print Only, Online Only and the combined Print + Online. The basic annual subscription rate is the same for all three delivery forms; however, a fee for the combined print and online subscription is levied, and there is a postage and handling charge for Print Only and Print + Online. Subscriptions run for a full calendar year. Prices are given per volume.

Print subscription: EUR 180.- + postage and handling.

Online subscription: EUR 180.-.

Combined (print + online) subscription: EUR 230.- + postage and handling.

Submission

BREAST CARE is a peer-reviewed scientific journal that encompasses all aspects of breast biology. As an interdisciplinary journal, it includes manuscripts describing basic research, prevention, diagnosis, and treatment of both benign and malignant diseases of the breast. In addition to presenting current developments in clinical research, it addresses broader topics in clinical practice by including articles that address legal, financial and economic issues of importance.

Manuscripts can be submitted online: www.karger.com/brc

Should you have any problems with electronic submission, or feel the need to submit the paper in a non-electronic form, please send your manuscript to:

S. Karger Verlag für Medizin und Naturwissenschaften GmbH
Attn.: Dr. Steffi Hentzelt
P.O. Box
79095 Freiburg (Germany)
Tel. +49 761 45 20 725
Fax +49 761 45 20 714
E-mail s.hentzelt@karger.com

Language

All contributions must be written in English (American or British spelling and grammar).

Types of Papers and Allotted Number of Pages

Please print the manuscript 1 1/2-spaced with 3-cm margins (left and right). Use only one format (normal) for the document.

The text (including the summary) should be limited to the following number of pages:

	Printed pages	Equals approx. manuscript pages*
Review Article, Original Article	5	14
Case Report	3	8
Clinical Information, Education	4	11
Letter to the Editor	1	3
Others	2	6

* including title page, summary, illustrations, tables, and references.

Conditions

Acceptance of a manuscript is based on the evaluation by several reviewers (peer review). Manuscripts are received with the explicit understanding that they are not under simultaneous consideration by any other publication. Submission of an article for publication implies the transfer of the copyright from the author to the publisher upon acceptance.

Once the manuscript is accepted for publication, all usage rights will be retained by the publisher. The assignment of usage rights applies to all print media as well as electronic offline and online media, including the Internet and data bases/data carriers of any kind. Accepted papers, in whole or in part, may not be translated into other languages, or reproduced by any mechanical or electronic means (including photocopying, recording and microcopying), or stored in a retrieval system without the written consent of the publisher. It is the authors' responsibility to obtain permission to produce illustrations, tables, etc. from other publications.

All forms of support, including that from drug companies, and any potential source of conflict of interest should be acknowledged in the cover letter to the editor. Should the manuscript be accepted, the editor will discuss the extent of disclosure appropriate for publication with the authors.

The publisher reserves the right to edit the manuscript and decide on the layout.

Conflicts of Interest

Authors are required to disclose any sponsorship or funding arrangements relating to their research, and all authors should disclose any possible conflicts of interest. Conflict of interest statements will be published at the end of the text of the article.

Ethical and Legal Prerequisites

Manuscripts involving examinations of human subjects must include a statement that the trial protocol has been approved by an ethical committee and thus meets the standards of the Declaration of Helsinki in its revised version of 1975 and its amendments of 1983, 1989, and 1996 [JAMA 1997;277:925–926]. Accordingly, the subject's informed consent has to be mentioned in the manuscript. Information suitable to reveal the subject's identity is to be avoided.

Arrangement

Authors' affiliations and address of correspondence: Each author's full name, followed by their affiliation (hospital, institute etc. where the work was conducted) and the exact postal address of the corresponding author complete with postal code must be given in a separate document to ensure a blind review process. Please also supply phone and fax numbers, as well as e-mail address.

Title page: The first page of each paper should indicate the title (German* and English) and a short title for use as running head.

Key Words: For indexing purposes, a list of 3-5 key words in English and German* is essential. Whenever possible, use key words such as found in the Medical Subject Headings List (MeSH) of Index Medicus.

Summary: Summaries must be submitted in German* and English. They must not exceed 200 words each. Summaries of Original Articles and Case Reports should be structured as follows: Background (or Introduction), Patients and Methods (or Material and Methods), Results, Conclusion.

If the author does not speak German the editorial Office will provide the translation after the manuscript has been accepted.

Footnotes: Footnotes should be used only for tables.

Registered Trade Names: When first mentioned, registered trade names must be marked with the superscript registration symbol ® or TM. It is the sole responsibility of the author to ensure that this rule is followed properly.

Tables and Illustrations: Tables and illustrations should be prepared on separate sheets. Tables require a heading and figures a legend, also prepared on a separate sheet. The number of figures and tables should be limited and aim to illustrate the text. Figures are listed in the text as (fig. 1), tables as (table 1). Data already mentioned in the text need not be repeated in a table. Accordingly, numbers used in tables need not be repeated in the text.

For the reproduction of illustrations, only good drawings and original photographs can be accepted. On the back of each illustration, indicate its number, the author's name, and 'top' with a soft pencil. Electronically submitted b/w half-tone and color illustrations must have a final resolution of 300 dpi after scaling, line drawings one of 800–1200 dpi. Color illustrations are reproduced at the author's expense. Each one is charged to the author at EUR 280.– + VAT as contribution to the additional reproduction and color printing costs.

References

The list of references should include only the publications cited in the text. The list should not exceed 60 references for reviews. References must be numbered sequentially in the order cited in the text. In the text identify references by Arabic numerals [in square brackets]. In each reference all authors should be named; the abbreviation 'et al.' is to be avoided. It is recommended to quote only articles already published or accepted for publication. Please avoid 'in preparation' or 'personal communication'. Authors are responsible for the accuracy and completeness of their references and for correct citation. Journal titles should be abbreviated according to the Index Medicus system (www.nlm.nih.gov). If a reference manager is used, the style «Pharmacology» or «Nephron» should be chosen. Examples for references:

Papers published in periodicals:

1 Wick W, Küker W: Brain edema in neurooncology: radiological assessment and management. *Onkologie* 2004;27:261–266.

Papers published only with DOI numbers:

Page Charges

There are no page charges for papers that do not exceed the allotted size (cf. types of papers).

Each additional complete or partial page is charged to the author at EUR 390.– + VAT.

Galley Proofs

Unless indicated otherwise, galley proofs are sent to the corresponding author and should be returned with the least possible delay. Alterations made in galley proofs, other than the correction of printer's errors, are charged to the author. No page proofs are supplied.

Reprints

Order forms and a price list are sent with the galley proofs. Orders submitted after the issue is printed are subject to considerably higher prices.
