

No. 1

Reviews

- 1 Molecular Chaperones and Their Roles in Neural Cell Differentiation**
Calabrese, V.; Scapagnini, G.; Ravagna, A.; Giuffrida Stella, A.M. (Catania); Butterfield, D.A. (Lexington, Ky.)
- 14 Multiple Actions of Pituitary Adenylyl Cyclase Activating Peptide in Nervous System Development and Regeneration**
Waschek, J.A. (Los Angeles, Calif.)
- 24 Hox Genes and Spinal Cord Development**
Carpenter, E.M. (Los Angeles, Calif.)
- 35 Fibroblast Growth Factors and Their Receptors in Oligodendrocyte Development: Implications for Demyelination and Remyelination**
Bansal, R. (Farmington, Conn.)

Original Papers

- 47 Apotransferrin Decreases Migration and Enhances Differentiation of Oligodendroglial Progenitor Cells in an in vitro System**
Paez, P.M.; Marta, C.B.; Besio Moreno, M.; Soto, E.F.; Pasquini, J.M. (Buenos Aires)
- 59 Levels of Amino Acid Neurotransmitters during Neurogenesis and in Histotypic Cultures of Mouse Spinal Cord**
Miranda-Contreras, L.; Benítez-Díaz, P.; Peña-Contreras, Z.; Mendoza-Briceño, R.V. (Mérida); Palacios-Prü, E. (Mérida/Caracas)
- 71 Prenatal Diazepam Exposure Functionally Alters the GABA_A Receptor that Modulates [³H]Noradrenaline Release from Rat Hippocampal Synaptosomes**
Martire, M.; Altobelli, D. (Rome); Cannizzaro, C. (Palermo); Maurizi, S.; Preziosi, P. (Rome)
- 79 Notch Signaling Inhibits PC12 Cell Neurite Outgrowth via RBP-J-Dependent and -Independent Mechanisms**
Levy, O.A.; Lah, J.J.; Levey, A.I. (Atlanta, Ga.)

No. 2-3

Transferrin, Ferritin and Iron in the Central and Peripheral Nervous System

Guest Editor: J.M. Pasquini (Buenos Aires)

93 Foreword

Iron Transport

- 94 Distribution of Ferroportin1 Protein in Different Regions of Developing Rat Brain**
Jiang, D.H.; Ke, Y.; Cheng, Y.Z.; Ho, K.P.; Qian, Z.M. (Kowloon)
- 99 A Morphological Study of the Developmentally Regulated Transport of Iron into the Brain**
Moos, T. (Copenhagen); Morgan, E.H. (Crawley)
- 106 Mechanism and Developmental Changes in Iron Transport across the Blood-Brain Barrier**
Morgan, E.H. (Crawley); Moos, T. (Copenhagen)

Iron: Oxidative Stress and Neurodegeneration

- 114 Numerous Proteins in Mammalian Cells Are Prone to Iron-Dependent Oxidation and Proteasomal Degradation**
Drake, S.K.; Bourdon, E.; Wehr, N.B.; Levine, R.L.; Backlund, P.S.; Yergey, A.L.; Rouault, T.A. (Bethesda, Md.)
- 125 Zinc Status of Human IMR-32 Neuroblastoma Cells Influences Their Susceptibility to Iron-Induced Oxidative Stress**
Mackenzie, G.G. (Buenos Aires); Keen, C.L. (Davis, Calif.); Oteiza, P.I. (Buenos Aires)
- 134 Interactions of Iron with Reactive Intermediates of Oxygen and Nitrogen**
Nappi, A.J.; Vass, E. (Chicago, Ill.)
- 143 Deferoxamine Attenuates Iron-Induced Oxidative Stress and Prevents Mitochondrial Aggregation and α -Synuclein Translocation in SK-N-SH Cells in Culture**
Sangchot, P. (Grand Forks, N.D./ Nakornpathom); Sharma, S. (Grand Forks, N.D.); Chetsawang, B. (Nakornpathom); Porter, J. (Grand Forks, N.D.); Govitrapong, P. (Nakornpathom); Ebadi, M. (Grand Forks, N.D.)

- 154 **Protein Oxidation and Heme Oxygenase-1 Induction in Porcine White Matter following Intracerebral Infusions of Whole Blood or Plasma**
Wagner, K.R.; Packard, B.A.; Hall, C.L.; Smulian, A.G.; Linke, M.J.; de Courten-Myers, G.M.; Packard, L.M.; Hall, N.C. (Cincinnati, Ohio)
- 161 **Heme Oxygenase-1 Induction and Dependent Increase in Ferritin. A Protective Antioxidant Stratagem in Hemin-Treated Rat Brain**
Gonzales, S.; Erario, M.A.; Tomaro, M.L. (Buenos Aires)
- 169 **Role of Porphyrin Sequestration in the Biogenesis of Iron-Laden Astrocytic Inclusions in Primary Culture**
Schipper, H.M.; Small, L.; Wang, X.; Brawer, J.R. (Montreal)
- 177 **ApoFerritin Attenuates Experimental Allergic Encephalomyelitis in SJL Mice**
LeVine, S.M.; Maiti, S.; Emerson, M.R.; Pedchenko, T.V. (Kansas City, Kans.)
- 184 **Iron: A Pathological Mediator of Alzheimer Disease?**
Bishop, G.M. (Cleveland, Ohio); Robinson, S.R. (Clayton); Liu, Q.; Perry, G.; Atwood, C.S.; Smith, M.A. (Cleveland, Ohio)
- 188 **Brain Iron Metabolism and Neurodegenerative Disorders**
Sipe, J.C.; Lee, P.; Beutler, E. (La Jolla, Calif.)
- Iron, Ferritin, Transferrin and Development
- 197 **Iron Deficiency during Embryogenesis and Consequences for Oligodendrocyte Generation in vivo**
Morath, D.J. (Salt Lake City, Utah); Mayer-Pröschel, M. (Rochester, N.Y.)
- 208 **Ferritin Binding in the Developing Mouse Brain Follows a Pattern Similar to Myelination and Is Unaffected by the Jimpy Mutation**
Hulet, S.W.; Menzies, S.; Connor, J.R. (Hershey, Pa.)
- 214 **HoloTransferrin but Not ApoTransferrin Prevents Schwann Cell De-Differentiation in Culture**
Salis, C.; Goedelmann, C.J.; Pasquini, J.M.; Soto, E.F.; Setton-Avruj, C.P. (Buenos Aires)
- 222 **Regulation of the Tissue-Specific Expression of Transferrin Gene**
Zakin, M.M.; Baron, B. (Paris); Guillou, F. (Nouzilly)
- 227 **Transferrin Regulates Transcription of the MBP Gene and Its Action Synergizes with IGF-1 to Enhance Myelinogenesis in the md Rat**
Espinosa-Jeffrey, A.; Kumar, S.; Zhao, P.M.; Awosika, O.; Agbo, C.; Huang, A.; Chang, R.; de Vellis, J. (Los Angeles, Calif.)
- 242 **Changes in the Expression of Cytoskeletal Proteins in the CNS of Transferrin Transgenic Mice**
Marta, C.B.; Ortiz, E.H. (Buenos Aires); Hallak, M. (Córdoba); Baron, B. (Paris); Guillou, F. (Nouzilly); Zakin, M.M. (Paris); Soto, E.F.; Pasquini, J.M. (Buenos Aires)
- 252 **Author Index**
- 253 **Subject Index**

No. 4

Multidisciplinary Perspective

- 255 **White Matter Injury, Neural Connectivity and the Pathophysiology of Psychiatric Disorders**
Kumar, A.; Cook, I.A. (Los Angeles, Calif.)

Original Papers

- 262 **Enhanced Epileptogenic Susceptibility in a Genetic Model of Reactive Synaptogenesis: The *Spastic* Han-Wistar Rat**
Cepeda, C. (Los Angeles, Calif.); Crawford, C.A. (San Bernardino, Calif.); Margulies, J.E. (Los Angeles, Calif.); Watson, J.B.; Levine, M.S. (Los Angeles, Calif.); Cohen, R.W. (Northridge, Calif.)

- 272 **Differential Localization of Metabotropic Glutamate Receptors during Postnatal Development**
Defagot, M.C.; Villar, M.J.; Antonelli, M.C. (Buenos Aires)
- 283 **Changes in the Expression of Parvalbumin Immunoreactivity in the Lumbar Spinal Cord of the Rat following Neonatal Nerve Injury**
Dekkers, J.; Greensmith, L.; Navarrete, R. (London)
- 294 **Age-Dependent Differences in Flurothyl-Induced c-fos and c-jun mRNA Expression in the Mouse Brain**
Storey, T.W. (Claremont, Calif.); Rho, J.M. (Irvine, Calif.); White, S.S. (Seattle, Wash.); Sankar, R. (Los Angeles, Calif.); Szot, P. (Seattle, Wash.)
- 300 **Reduced Glial Fibrillary Acidic Protein and Glutamine Synthetase Expression in Astrocytes and Bergmann Glial Cells in the Rat Cerebellum Caused by Δ^9 -Tetrahydrocannabinol Administration during Development**
Suárez, I.; Bodega, G.; Fernández-Ruiz, J.J.; Ramos, J.A.; Rubio, M.; Fernández, B. (Madrid)
- 313 **The Effect of L-Arginine, a Nitric Oxide Synthase Substrate, on Retinal Cell Proliferation in the Postnatal Rat**
Kim, K.-Y.; Moon, J.-I.; Lee, E.-J.; Lee, Y.-J.; Kim, I.-B.; Park, C.K.; Oh, S.-J.; Chun, M.-H. (Seoul)
- 322 **Self-Biting Induced by Activation of L-Type Calcium Channels in Mice: Serotonergic Influences**
Kasim, S.; Egami, K.; Jinnah, H.A. (Baltimore, Md.)
- 328 **Hindbrain and Cranial Nerve Dysmorphogenesis Result from Acute Maternal Ethanol Administration**
Dunty, W.C., Jr. (Chapel Hill, N.C.); Zucker, R.M. (Research Triangle Park, N.C.); Sulik, K.K. (Chapel Hill, N.C.)

No. 5

Developmental Brain Injury

Guest Editors: S.J. Vannucci (New York, N.Y.); R.C. Vannucci; S.W. Levison (Hershey, Pa.)

Developmental Brain Injury

347 Preface

Vannucci, S.J. (New York, N.Y.); Vannucci, R.C.; Levison, S.W. (Hershey, Pa.)

Commentaries

- 349 **Timing Is Everything – Delaying Therapy for Delayed Cell Death**
Ferreiro, D.M. (San Francisco, Calif.)
- 352 **New Approaches to Brain Injury in Preterm Infants**
Edwards, D. (London)

Review

- 355 **Under What Circumstances Can Seizures Produce Hippocampal Injury: Evidence for Age-Specific Effects**
Galanopoulou, A.S.; Vidaurre, J.; Moshé, S.L. (Bronx, N.Y.)

Perspectives

- 364 **Animal Models of Developmental Brain Injury: Relevance to Human Disease. A summary of the Panel Discussion from the Third Hershey Conference on Developmental Cerebral Blood Flow and Metabolism**
Hagberg, H. (Göteborg); Ichord, R. (Philadelphia, Pa.); Palmer, C. (Hershey, Pa.); Yager, J. (Saskatoon); Vannucci, S. (New York, N.Y.)

Original Papers

- 367 **Prolonged Neonatal Seizures Exacerbate Hypoxic-Ischemic Brain Damage: Correlation with Cerebral Energy Metabolism and Excitatory Amino Acid Release**
Yager, J.Y.; Armstrong, E.A.; Miyashita, H. (Saskatoon); Wirrell, E.C. (Calgary)

382 Neuroprotection of Creatine Supplementation in Neonatal Rats with Transient Cerebral Hypoxia-Ischemia

Adcock, K.H.; Nedelcu, J.; Loenneker, T.; Martin, E.; Wallimann, T. (Zurich); Wagner, B.P. (Berne)

389 Inhibition of nNOS and iNOS following Hypoxia-Ischaemia Improves Long-Term Outcome but Does Not Influence the Inflammatory Response in the Neonatal Rat Brain

van den Tweel, E.R.W.; Peeters-Scholte, C.M.P.C.D.; van Bel, F.; Heijnen, C.J.; Groenendaal, F. (Utrecht)

396 Effects of Selective Nitric Oxide Synthase Inhibition on IGF-1, Caspases and Cytokines in a Newborn Piglet Model of Perinatal Hypoxia-Ischaemia

Peeters-Scholte, C.; Koster, J.; van den Tweel, E. (Utrecht); Blomgren, K. (Göteborg); Hamers, N. (Utrecht); Zhu, C. (Göteborg); van Buul-Offers, S. (Utrecht); Hagberg, H. (Göteborg); van Bel, F.; Heijnen, C.; Groenendaal, F. (Utrecht)

405 Evidence that p38 Mitogen-Activated Protein Kinase Contributes to Neonatal Hypoxic-Ischemic Brain Injury

Hee Han, B. (Seoul/St. Louis, Mo.); Choi, J.; Holtzman, D.M. (St. Louis, Mo.)

411 Hypoxic Preconditioning Increases Brain Glycogen and Delays Energy Depletion from Hypoxia-Ischemia in the Immature Rat

Brucklacher, R.M.; Vannucci, R.C.; Vannucci, S.J. (Hershey, Pa.)

418 Early Appearance of Functional Deficits after Neonatal Excitotoxic and Hypoxic-Ischemic Injury: Fragile Recovery after Development and Role of the NMDA Receptor

Felt, B.T. (Ann Arbor, Mich.); Schallert, T. (Ann Arbor, Mich./Austin, Tex.); Shao, J.; Liu, Y.; Li, X.; Barks, J.D.E. (Ann Arbor, Mich.)

426 Damage to the Choroid Plexus, Ependyma and Subependyma as a Consequence of Perinatal Hypoxia/Ischemia

Rothstein, R.P.; Levison, S.W. (Hershey, Pa.)

437 IGF-I and NT-3 Signaling Pathways in Developing Oligodendrocytes: Differential Regulation and Activation of Receptors and the Downstream Effector Akt

Ness, J.K.; Mitchell, N.E.; Wood, T.L. (Hershey, Pa.)

446 Abstracts

465 Author Index

466 Subject Index

No. 6

Original Papers

467 A Computational Model for Neocortical Neuronogenesis Predicts Ethanol-Induced Neocortical Neuron Number Deficits

Gohlke, J.M.; Griffith, W.C. (Seattle, Wash.); Bartell, S.M. (Davis, Calif.); Lewandowski, T.A. (Mercer Island, Wash.); Faustman, E.M. (Seattle, Wash.)

478 Ganglioside Patterns Mature at Different Rates in Functionally Related Subregions of the Rat Pons

Byers, D.M.; Irwin, L.N.; Cabeza, R. (El Paso, Tex.)

485 Postnatal Maternal Separation Elevates the Expression of the Postsynaptic Protein Kinase C Substrate RC3, but Not Presynaptic GAP-43, in the Developing Rat Hippocampus

McNamara, R.K. (Philadelphia, Pa.); Huot, R.L. (Atlanta, Ga.); Lenox, R.H. (Philadelphia, Pa.); Plotsky, P.M. (Atlanta, Ga.)

495 Immunocytological Studies of L-MAG Expression Regulation during Myelination of Embryonic Brain Cell Cocultures

Keita, M.; Magy, L. (Limoges); Heape, A. (Oulu); Richard, L.; Piasser, M.; Vallat, J.-M. (Limoges)

504 Light-Dark and Circadian Melatonin Rhythms Are Established de novo in Re-Aggregates of the Embryonic Chicken Retina

Willbold, E.; Huhn, J. (Darmstadt); Korf, H.-W. (Frankfurt/Main); Voisin, (Poitiers); Layer, P.G. (Darmstadt)

512 Differential Influence of Rearing Conditions and Methamphetamine on Serotonin Fibre Maturation in the Dentate Gyrus of Gerbils (*Meriones unguiculatus*)

Busche, A.; Neddens, J.; Dinter, C.; Dawirs, R.R.; Teuchert-Noodt, G. (Bielefeld)

522 Developmental Effects of Prenatal Cocaine Exposure on 5-HT_{1A} Receptors in Male and Female Rat Offspring

Johns, J.M.; Lubin, D.A.; Lieberman, J.A.; Lauder, J.M. (Chapel Hill, N.C.)

531 Neonatal 6-Hydroxydopamine Administration to Mice Is Fatal

Brot, M.D.; Szczyпка, M.S.; Reavell, R.; Marck, B.T.; Matsumoto, A.M.; Palmiter, R.D. (Seattle, Wash.)

539 Author Index Vol. 24, 2002

541 Subject Index Vol. 24, 2002
