

Subject Index

- Abt-Letterer-Siwe, morbus 359
Adrenal and pituitary functions during long-term topical steroid therapy 179
Allergic vasculitis 366
Anthralin, interaction in pastes 287
Antibodies, circulating in dermatophytosis I
Antigen Dd 310
Anti-inflammatory agents for radiodermatitis 97
Arthritis and pustular psoriasis in congenital psoriasiform erythroderma 12

Bullous dermatosis with latent diabetes 283

Candida albicans 193
Candidiosis nodularis of the inguino-genital-gluteal region 144
Carcinoma, basal-cell, treatment with 5-fluorouracil 205
Chloracetamide, allergic contact eczema due to 108
Cholesterin content of skin tumors 40
Chrysarobin, introduction into Europe 115
Contact dermatitis to virginiamycin 253
Contact eczema, allergic, due to chloracetamide 108

Dandruff, human as an antigen 310
Dd antigen 310
Dermatophytosis, study by hydrophotographic technique 348
Dermatophytes, animal pathogenicity after subliminal doses of griseofulvin 187
Dermatophytosis, circulating antibodies in I
Dermatosis bullosa chronica juvenilis 364
Diabetes, latent, with bullous dermatosis 283
2,4-Dinitrophenyl conjugate 19
DNCB contact allergy 19

Drug eruption, fixed, to oxyphenbutazone and phenylbutazone 214
Dysplasia, focal dermal 156

Eczema, contact, to chloracetamide 108
Epidermis, keratin fractions from 217, 301
Epidermolysis bullosa 27
Erythroderma, congenital psoriasiform, pustular psoriasis and arthritis in 12
Exanthema due to HgCl₂ 353

5-Fluorouracil, treatment of basal cell carcinoma 205

Glutaraldehyde fixation of half-desmosomes 35
Goltz's syndrome: focal dermal dysplasia syndrome 156
Granuloma glutaceale infantum 144
Griseofulvin, subliminal doses and animal pathogenicity of dermatophytes 187

Half-desmosomes 35
Hamster melanoma, Fortner's AMcl3 92
Herpesvirus hominis infection, diagnostic of 45
Histiocytosis X 362
Hyalinosis cutis et mucosae 168
Hydrophotography for study of dermatoglyphics 348
Hyperlipaemia causing xantomatoses 270
Hypoplasia, focal dermal 156

Immunofluorescent studies of psoriatic skin 314
 β -Irradiation, permeability of the skin vessel after 176

Keratin fractions from mammalian epidermis 217, 301

- Keratinization and differentiation of fetal rat skin 332
- Larva currens (migrans) caused by *Strongyloides stercoralis* 350
- Larva migrans, systemic 129
- Lipids, skin surface, quantitative estimation of 229
- Lupus erythematosus, systemic 321
- Lupus miliaris disseminatus faciei due to rosacea papulopustulosa 360
- Lysosomes of skin, effect of UV-irradiation 237
- Malherbe's calcifying epithelioma, nucleic acids in 325
- Mastocytosis bullosa generalisata 370
- Melanoma, Fortner's hamster, AMel 3, operability 92
- Mercury exanthema 353
- Myeloma, multiple, scleroderma-like lesions in 257
- Netherland's Society of Dermatologist, 191st meeting, Leiden, 23 October 1971 353-371
- Nevus, connective tissue 57
- Nucleic acids in Malherbe's calcifying epithelioma 325
- Nyastin 193
- Oxyphenbutazone, drug eruption to 214
- Papillomatosis mucosae oris carcinoides 75
- Papillomatosis, oral florid 75
- Papulosis, lymphomatoid 65
- Pemphigus erythematosus, electron-microscopic aspects 294
- Pemphigus foliaceus 356
- Pemphigus vulgaris, electron-microscopic aspects 294
- Permeability of skin vessels after local irradiation 176
- Phenylbutazone, drug eruption to 214
- Pituitary and adrenal functions during longterm topical steroid therapy 179
- Pityriasis rubra pilaris 356
- Psoriasis, alterations of collagen in 83
- Psoriasis, immunofluorescent studies of skin 314
- Psoriasis, pustular and arthritis in congenital erythroderma 12
- Psoriasis therapy 287
- Quincke oedema and chronic urticaria 193
- Radiodermatitis, effect of anti-inflammatory compounds 97
- Regeneration of pathological tissue 168
- Rosacea papulopustulosa typus Lupus miliaris disseminatus faciei 360
- Salicylic acid, interaction in pastes 287
- Salicylic acid, toxicity 348
- Scleroderma-like lesions in multiple myeloma 257
- Sebaceous glands, influence of testosterone in organ-culture 353
- Steroid therapy, long-term topical, adrenal and pituitary functions during 179
- Strongyloides stercoralis causing larva currens (migrans) 350
- Sunscreen, protective effect upon the lysosomes of UV-irradiated skin 237
- Sweet's syndrome simulating systemic lupus erythematosus 321
- Syphilis, tertiary 371
- Testosterone, influence on sebaceous glands in organ-culture 353
- Tinea capitis 1
- Tinea corporis 1
- Topical steroid treatment 179
- Toxocariasis, cutaneous manifestations of 129
- Triglycerid content of skin tumors 40
- Tumors of skin, triglycerid/cholesterol content 40
- Urticaria, chronic 193
- UV-irradiated skin, effect upon lysosomes of 237

- Vasculitis, allergic 366
Virginiamycin, allergic contact dermatitis to 253
Vitamin E treatment of epidermolysis bullosa 27
Xantomatoses as manifestations of hyperlipaemia 270
Zinc oxide, interaction in pastes 287
Zoonoses 129
