**Subject Index Vol. 83, No. 3, 2017/2018**

---

- AgilentSureSelect 153  
Asthma susceptibility 130
- Data integration 117  
Deep learning 163  
Disease-associated gene 117  
DNA methylation 130
- Exome capture 153
- Genome-wide association study 107  
Genomics 163  
Genotype imputation 107
- Hidden Markov random field 117
- Illumina Nextera 153  
Integrative genomics 130
- Machine learning 163  
Minor allele frequency 107  
Multilayer neural network 163
- Single-cell sequencing 153  
SNPs 130  
Somatic mutations 153  
Statistical interactions 130
- tRNA prediction 163  
tRNAscan-SE improvement 163
- Whole genome sequencing 107
