

Corrigendum

In the article by L.A. Hebert entitled 'Management of Lupus Nephropathy' (Nephron Clin Pract 2003;93:c7–c12), there is an error on page c10. In column 2, line 7 under the heading 'Therapies of SLE', the cyclophosphamide dose should be 1.5 mg/kg ideal body weight/day, not 1.5 g/kg.
