

# Radiation and Theranostics in Neuroendocrine Tumors

---

Guest Editor  
*Sean X. Yan*, Dallas, TX, USA

21 figures, 14 in color, and 20 tables, 2024

---

## Conflict of Interest Statement

The editor has no conflict of interest to declare.

## Contents

---

### Editorial

---

#### **803 Radiation and Theranostics in Neuroendocrine Tumors: An Asian Perspective**

Yan, S. (Dallas, TX)

---

### Research Articles

---

#### **805 Prognostic Value of Somatostatin Receptor-Derived Volumetric Parameters from a Hybrid Standardized Uptake Value Thresholding Method in Patients with <sup>68</sup>Ga-DOTATATE-Avid Stage IV Neuroendocrine Neoplasms: A Preliminary Study**

Cheng, Z.; Zou, S.; Zhou, J.; Song, S.; Zhu, Y.; Zhao, J.; Zhu, X. (Wuhan)

#### **816 Predictive Factors of Early <sup>18</sup>F-Fluorodeoxyglucose-Positron Emission Tomography Response to [<sup>131</sup>I] Metaiodobenzylguanidine Treatment for Unresectable or Metastatic Pheochromocytomas and Paragangliomas**

Takenaka, J.; Watanabe, S.; Abe, T.; Tsuchikawa, T.; Takeuchi, S.; Hirata, K.; Kimura, R.; Wakabayashi, N.; Shinohara, N.; Kudo, K. (Sapporo)

#### **827 Circulating Regulatory T Cells: A Novel Marker Associated with Liver Metastasis and the Treatment Response of Transarterial Embolization in Gastroenteropancreatic Neuroendocrine Tumors**

Liu, M.; Yu, H.; Chen, L.; Yang, D.; Liu, H.; Ouyang, J.; Zhang, J.; Yan, X.; Luo, Y.; Lin, Y.; He, Q.; Chen, M.; Zhang, N.; Wang, Y. (Guangzhou)

#### **840 Treatment and Long-Term Safety Outcomes of Peptide Receptor Radionuclide Therapy for Metastatic Neuroendocrine Tumours: An Asian Experience**

Tham, W.Y.; Huang, H.L.; Tai, D.W.M.; Allen Jr, J.C.; Hwang, J.S.G.; Loh, L.M.; Goh, B.K.P.; Ong, S.Y.K.; Kek, P.C.; Tan, D.M.Y.; Ng, D.C.E.; Loke, K.S.H. (Singapore)

#### **848 Somatostatin Receptor Imaging in Mice with Difference Positive Rate of SSTR2**

Xie, Q.; Zhou, W.; Meng, X.; Ding, J.; Li, D.; Lu, M.; Yang, Z.; Yu, J. (Beijing)

---

## At the Cutting Edge

---

### **856 A Review of the Evolving Role of Radiotherapy in the Treatment of Neuroendocrine Neoplasms**

Yit, L.F.N.; Li, Y. (Singapore)

---

## Case Report

---

### **866 Heterogeneity of Multiple Pancreatic Neuroendocrine Tumors Identified by <sup>68</sup>Ga-DOTANOC and <sup>68</sup>Ga-Exendin-4 PET/CT in a Patient with Endogenous Hyperinsulinemic Hypoglycemia and Multiple Endocrine Neoplasia 1**

Xu, J.; Xu, X.; Zhang, M.; Liu, W.; Chen, J.; Song, S. (Shanghai)

### **872 Author Index**

### **873 Subject Index**
