

Index rerum ad Vol. 173

Confecit: C. LOEB-SCHÜRCH

(V) = Report – Vortrag – Communication

(B) = Book Reviews – Buchbesprechungen – Livres nouveaux

- Ablatio retinae, v. Hydrodynamic events
- Acuité visuelle, v. Aids, Cone dystrophies, Residual astigmatism, Static vision, Vision deterioration
- Adaptation à l'obscurité, v. Halothane
- Aderhaut, v. Central retinopathy, Detachment, Irradiation, Scanning electron microscopy, Survival rate
- Adnexa; the anatomy of the ocular adnexa 448 (B)
- Africa, v. Staphyloma, Xerophthalmia
- Aids; low vision aids 234 (V)
- Amblyopie, v. Microstrabismus
- Amino acids; free amino acids in the normal and cataractous bovine and human lens capsule and lens 505
- Amyloidosis; bilateral amyloidosis of the orbit. A case report with pathogenetical considerations 70
- Amyloidosis; a family with generalized amyloidosis and ocular anomalies 405 (V)
- Anesthesia, v. Examination, Halothane
- Aneurysma, v. Vascular lesion
- Angiographie fluorescéinique, v. Behçet's syndrome, Central retinopathy, Differentiation, Hyperlipaemia, Lens implantation, Macular changes
- Angioscotoma, v. Glaucomatous excavation
- Angular conjunctivitis, v. Pyridoxine deficiency
- Aniridia, v. Hyperprolinemia
- Anisometropie, v. Microstrabismus
- Anterior ischemic optic neuropathy 451 (B)
- Argon laser coagulation, v. Posterior ocular segment, Vision deterioration
- Arterial hypertension, v. Detachment, Vision deterioration
- Aspiration; bimanual aspiration of the lens with pedal control of the anterior chamber pressure 419 (V)
- Astigmatismus, v. Residual astigmatism
- Atrophia bulborum hereditaria, v. Hyperprolinemia
- Atrophie du nerf optique, v. Blue-green disorders, Differentiation, Optico-otodiabetic syndrome
- Atrophie rétinienne pigmentaire, v. Tapetum lucidum
- Augenärztliche Fortbildung 525 (B), 528 (B), 529 (B)
- Augenbinnendruck, v. Staphyloma
- Augenkomplikationen, v. Bullous keratopathy, Lens implantation, Membranen, Vision deterioration
- Augenmuskeln, v. Enzyme histochemistry, Eye muscle surgery, Paralysis

- Autoimmune thrombocytopenia, v. Thrombocytopenia
- Automation, v. Scoperimeter
- Bacteriology, v. Gram-negative bacteria, Pyridoxine deficiency
- Bandage; the strip bandage 398 (V)
- Basaliom, v. Kryotherapie
- Bâtonnet, v. Cone dystrophies
- Behçet's syndrome; ischaemic optic neuropathy in Behçet's syndrome 11
- Bindegewebe, v. Cytoenzymology
- Bindehaut, v. Kryotherapie, Pyridoxine deficiency
- Biochemie, v. Amino acids, Gram-negative bacteria, Lactoferrin, Pyridoxine deficiency
- Blindness, v. Norrie's disease, Staphyloma, Xerophthalmia
- Blue-green disorders; genetic variability of blue-green disorders and forms of optic nerve atrophy 230 (V)
- Book reviews 159 (B), 447 (B), 525 (B)
- Bovine, v. Amino acids
- Bronchialkarzinom, v. Irismetastase
- Buchbesprechungen 159 (B), 447 (B), 525 (B)
- Bullous keratopathy following lens extraction in eyes with acute glaucoma due to intumescent cataract 23
- Bull's eye maculopathy, v. Cone dystrophies
- Carcinome bronchique, v. Irismetastase
- Cataract, v. Amino acids, Bullous keratopathy, Hyperprolinemia
- Cécité, v. Norrie's disease, Staphyloma, Xerophthalmia
- Central retinopathy 207 (V)
- Champ visuel, v. Behçet's syndrome, Central retinopathy, Optical instrument, Optic hypoplasia, Peripheral vision, Scoperimeter
- Chiasm tumors; the differential diagnosis between optic neuritis and chiasm tumors 392 (V)
- Chicken, v. Eye growth
- Chirurgie, v. Eye muscle surgery, Kryoextraktion, Malignant exophthalmos, Paralysis, Teratoma, Trabeculoseclerectomy
- Chorioidea, v. Central retinopathy, Detachment, Irradiation, Scanning electron microscopy, Survival rate
- Chromatography, v. Amino acids
- Chromosom, v. Down's syndrome, Tapetum lucidum
- Cicatrice, v. Déformation acquise
- Clinicopathologic case reports 64, 145
- Cobaye, v. Cytoenzymology, Pyridoxine deficiency
- Colour vision defect, v. Blue-green disorders, Cone dystrophies, Hereditary ocular anomalies
- Complications oculaires, v. Bullous keratopathy, Lens implantation, Membranen, Vision deterioration
- Concussive and penetrating injuries of the globe and optic nerve 527 (B)
- Cone dystrophies; progressive cone dystrophies 81
- Congrès, v. Netherlands Ophthalmological Society
- Conjunctiva, v. Kryotherapie, Pyridoxine deficiency
- Conjunctivitis angularis, v. Pyridoxine deficiency
- Connective tissue, v. Cytoenzymology
- Contact lenses, v. Residual astigmatism
- Contact lens practice. Hard and flexible lenses 447 (B)
- Cornea, v. Bullous keratopathy, Herpetic keratitis, Hyperprolinemia, Membranen, Norrie's disease, Staphyloma, Xerophthalmia
- Corneal dystrophy; the treatment of the corneal dystrophy after cataract extraction with lens implantation 413 (V)
- Corps vitré, v. Déformation acquise, Hydrodynamic events, Kryoextraktion, Posterior ocular segment
- Corticoids, v. Cytoenzymology, Parsplanitis, Prednisone

- Crâne, v. Eye growth
- Cristallin, v. Amino acids, Déformation acquise, Kryoeextraktion, Norrie's disease
- Croissance, v. Eye growth
- Cryosurgery in ophthalmology 525 (B)
- Cryotherapie, v. Kryotherapie
- Cryotherapy in the treatment of diabetic retinopathy 422 (V)
- Current concepts in cataract surgery 449 (B)
- Cyclitis, v. Pars-planitis
- Cytoenzymology and ³H-thymidine uptake of retro-ocular. Connective tissue cultures in experimental endocrino-exophthalmos 136
- Cytostatica, v. Lymphoma, Pars-planitis
- Dacryocystorhinostomy; endonasal dacryocystorhinostomy 417 (V)
- Dark adaptation, v. Halothane
- Deafness, v. Norrie's disease, Optico-oto-diabetic syndrome
- Décollement rétinien, v. Hydrodynamic events
- Déformation acquise posttraumatique du cristallin 106
- Descemet, v. Membranen
- Detachment of the choroid in (sub)acute malignant hypertension 397 (V)
- Deutanopie, v. Hereditary ocular anomalies
- Development, v. Eye growth
- Diabetes, v. Optico-oto-diabetic syndrome
- Diabetes mellitus 525 (B)
- Diabetic retinopathy 448 (B)
- Diabetic retinopathy, v. Vision deterioration
- Diagnose, v. Differentiation, Paralysis, Phosphorus, Screening
- Differentialdiagnose, v. Hereditary ocular anomalies, Norrie's disease
- Differential diagnosis of intraocular tumors 447 (B)
- Differentiation of the various forms of optic nerve atrophy possibilities of fluorescence angiography 231 (V)
- Diplopia 159 (B)
- Diplopia, v. Eye muscle surgery, Prednisone
- Disseminated serous chorioretinitis 421 (V)
- Down's syndrome; congenital eversion of the eyelids in a case of Down's syndrome 250 (V)
- Drusen der Papille 443 (V)
- Dunkeladaptation, v. Halothane
- Dyslexia; on writing, reading and dyslexia 449 (B)
- Dystrophie des cônes, v. Cone dystrophies
- Dystrophie oculaire, v. Hyperprolinemia
- Elektronenmikroskopie, v. Scanning electron microscopy
- Embryology, v. Eye growth
- Endocrine influences on the refraction of the eyes of young rats 328 (V)
- Endocrinology, v. Cytoenzymology, Eye muscle surgery, Malignant exophthalmos, Prednisone
- Endothel, v. Membranen
- Entwicklung, v. Eye growth
- Enzymaktivität, v. Cytoenzymology
- Enzyme-histochemistry of normal external ocular muscles 326 (V)
- EOG, v. Cone dystrophies
- Epithélium pigmentaire, v. Central retinopathy
- ERG, v. Cone dystrophies, Halothane, Optico-oto-diabetic syndrome
- Ernährung, v. Pyridoxine deficiency, Staphyloma, Xerophthalmia
- Eversion palpébrale, v. Down's syndrome
- Examination of young children with impaired vision 311 (V)
- Excavation glaucomateuse, v. Glaucomatous excavation
- Exophthalmos, v. Cytoenzymology, Eye muscle surgery, Lymphoma, Malignant exophthalmos, Prednisone
- Experimentelle Forschung, v. Amino acids, Cytoenzymology, Endocrine

- influences, Enzyme histochemistry, Eye growth, Halothane, Hydrodynamic events, Lactoferrin, Laser-Trabekulopunktur, Pyridoxine deficiency, Static vision
- Extraction du cristallin, v. Bullous keratopathy, Kryoextraktion
- Eye growth; experimental studies on the relationship between eye growth and skull growth 317 (V)
- Eye muscle surgery; indications and results of eye muscle surgery in thyroid ophthalmopathy 171 (V)
- Farbsinnstörung, v. Blue-green disorders, Cone dystrophies, Hereditary ocular anomalies
- Fibroplasie; ein Beitrag zur Pathogenese der «spontanen» epiretinalen Fibroplasie 486
- Fibroplasie rétrodentale, v. Norrie's disease
- Flavimaculated fundus, v. Cone dystrophies
- Fluide lacrymal, v. Lactoferrin, Pyridoxine deficiency
- Fluoroangiographie, v. Behçet's syndrome, Central retinopathy, Differentiation, Hyperlipaemia, Lens implantation, Macular changes
- Foster-Kennedy syndrome, v. Ischaemic optic neuropathy
- Fundus, v. Central retinopathy, Hyperlipaemia, Lens implantation, Lymphoma, Macular changes
- ⁶⁷Ga γ -orbitography, v. Rare tumors
- Ganglion cells, v. Glaucomatous excavation
- Gefäße, v. Behçet's syndrome, Differentiation, Glaucomatous excavation, Hydrostatische Druckverhältnisse, Hyperlipaemia, Ischaemic optic neuropathy, Kryotherapie, Macular changes, Retinal vascular occlusion, Vascular lesion, Vision deterioration
- Genetics, v. Blue-green disorders, Cone dystrophies, Hereditary ocular anomalies, Hyperprolinemia, Norrie's disease, Optico-oto-diabetic syndrome, Screening, Tapetum lucidum, Vascular lesion, Xeroderma pigmentosum
- Gesichtsfeld, v. Behçet's syndrome, Central retinopathy, Optical instrument, Optic hypoplasia, Peripheral vision, Scoperimeter
- Glaskörper, v. Déformation acquisite, Hydrodynamic events, Kryoextraktion, Posterior ocular segment
- Glaucoma, v. Bullous keratopathy, Glaucomatous excavation
- Glaucomatous excavation; factors influencing the development of glaucomatous excavation 308 (V)
- Glioblastoma multiforme, v. Rare tumors
- Gram-negative bacteria; ocular infections caused by unusual gram-negative bacteria 375
- Granulocytes, v. Vascular lesion
- Granulomatous disease, v. Vascular lesion
- Growth, v. Eye growth
- Guinea pig, v. Cytoenzymology, Pyridoxine deficiency
- Haemangi endothelioma, v. Rare tumors
- Haemangioma, v. Vascular lesion
- Halothane; the effect of halothane anesthesia on retinal processes 286 (V)
- Harada; morbus Harada 445 (V)
- Helfer des Augenarztes 450 (B)
- Hemianopia congenita, v. Optic hypoplasia
- Hereditary ocular anomalies; an analysis of acquired disorders of color vision with a view to distinction from hereditary ocular anomalies 221 (V)
- Hérédité, v. Blue-green disorders, Cone dystrophies, Hereditary ocular anomalies, Hyperprolinemia, Norrie's disease, Optico-oto-diabetic syndrome, Screening, Tapetum lucidum, Vascular lesion, Xeroderma pigmentosum

- Herpetic keratitis; the incidence of herpetic keratitis among population 19
- Hess chart, v. Eye muscle surgery, Prednisone
- Histiocytes, v. Vascular lesion
- Histochemistry, v. Enzyme histochemistry
- Histology, v. Amyloidosis, Cytoenzymology, Irismetastase, Kryotherapie, Laser-Trabekulopunktur, Rare tumors, Scanning electron microscopy, Schwannoma, Staphyloma, Teratoma, Vascular lesion
- Histoplasmosis, v. Multifocal choroiditis
- Hodgkin's disease, v. Lymphoma
- Hornhaut, v. Bullous keratopathy, Herpetic keratitis, Hyperprolinemia, Membranen, Norrie's disease, Staphyloma, Xerophthalmia
- Huhn, v. Eye growth
- Hyaluronidase, v. Cytoenzymology
- Hydrodynamic events in the vitreous space accompanying eye movements. Significance for the pathogenesis of retinal detachment 513
- Hydrostatische Druckverhältnisse im Auge 437 (V)
- Hyperlipaemia; fundus changes in primary hyperlipaemia 190 (V)
- Hyperprolinemia; type I hyperprolinemia in a family suffering from aniridia and severe dystrophia of ocular tissues 1
- Hypertension artérielle, v. Detachment, Vision deterioration
- Hyperthyroidismus, v. Eye muscle surgery, Prednisone
- Idiopathic thrombocytopenic purpura, v. Thrombocytopenia
- Immunoelktrophorese, v. Lactoferrin
- Impaired vision, v. Examination
- Infection, v. Gram-negative bacteria
- Instrument, v. Optical instrument
- Intraocular pressure, v. Staphyloma
- Intumescent cataract, v. Bullous keratopathy
- Investigation, v. Optic hypoplasia, Screening
- Irismetastase eines verhornenden Plattenepithelkarzinoms der Bronchien 152
- Irradiation; the effect of orbital irradiation on the survival rate of patients with choroidal melanoma 49
- Ischaemia, v. Behçet's syndrome
- Ischaemic optic neuropathy 185 (V)
- Juvenile hemorrhagic maculopathy 407 (V)
- Katarakt, v. Amino acids, Bullous keratopathy, Hyperprolinemia
- Keratitis herpetica, v. Herpetic keratitis
- Keratomalazie, v. Staphyloma, Xerophthalmia
- Keratoplastik, v. Membranen
- Kontaktlinsen, v. Residual astigmatism
- Kryoextraktion; Erfahrungen mit der Kryoextraktion der Linse aus dem Glaskörper in 123 Fällen 111
- Kryotherapie; die Kryotherapie von Lid- und Bindehauttumoren 53
- Lacrimal fluid, v. Lactoferrin, Pyridoxine deficiency
- Lactoferrin and the protective function of the lacrimal fluid 268 (V)
- Laser coagulation in peripheral retinal degeneration, retinal defects and retinoschisis 389 (V)
- Laser-Trabekulopunktur; zur Laser-Trabekulopunktur. III. Versuche am Rhesusaffen 40
- Lebersche Optikusatrophie, v. Differentiation
- Lens, v. Amino acids, Déformation acquise, Kryoextraktion, Norrie's disease
- Lens implantation; macular oedema after intra-ocular lens implantation 196 (V)
- Lentilles de contact, v. Residual astigmatism
- Lichtscheu, v. Cone dystrophies
- Lid, v. Down's syndrome, Kryotherapie

- Linse, v. Amino acids, Déformation acquise, Kryoextraktion, Norrie's disease
- Lipaemia, v. Hyperlipaemia
- Livres nouveau 159 (B), 447 (B), 525 (B)
- Loa loa*; the African eye worm
loa loa 445 (V)
- Loupe, v. Aids
- Luxatio lentis, v. Kryoextraktion
- Lymphangioma cysticum, v. Rare tumors
- Lymphoid tumours 249 (V)
- Lymphoma; exophthalmos due to malignant lymphoma 257 (V)
- Macula, v. Central retinopathy
- Macular changes caused by the occlusion of a minute venous branch 200 (V)
- Maculopathie en œil de bœuf, v. Cone dystrophies
- Magnifying glass, v. Aids
- Makulaödem, v. Fibroplasie, Lens implantation, Macular changes, Vision deterioration
- Malformation, v. Down's syndrome, Eye growth, Hyperprolinemia, Norrie's disease
- Malignancy, v. Phosphorus
- Malignant exophthalmos; advanced surgery in malignant exophthalmos 184 (V)
- Malignant lymphoma, v. Lymphoma
- Malignant melanoma of the choroid in a two-year-old girl 333 (V)
- Malnutrition, v. Pyridoxine deficiency, Staphyloma, Xerophthalmia
- Masern, v. Staphyloma, Xerophthalmia
- Measles, v. Staphyloma, Xerophthalmia
- Medikamentöse Glaukomtherapie 450 (B)
- Meerschweinchen, v. Cytoenzymology, Pyridoxine deficiency
- Melanoma, v. Irradiation, Malignant melanoma, Rare tumors, Scanning electron microscopy, Survival rate
- Membranen; zur Einteilung der retrokorneal gelegenen Membranen 490
- Mental retardation, v. Norrie's disease
- Metabolic eye disease 527 (B)
- Metabolism, v. Hyperlipaemia, Hyperprolinemia
- Metastase, v. Irismetastase
- Methode, v. Eye muscle surgery, Kryoextraktion, Kryotherapie, Malignant exophthalmos, Optic hypoplasia, Paralysis, Peripheral vision, Phosphorus, Scoperimeter
- Microphtalmia, v. Eye growth, Hyperprolinemia, Norrie's disease
- Microscopie électronique, v. Scanning electron microscopy
- Microstrabismus 298 (V)
- Microsurgery of the anterior segment of the eye 526 (B)
- Mikroorganismen, v. Gram-negative bacteria, Pyridoxine deficiency
- Missbildung, v. Down's syndrome, Eye growth, Hyperprolinemia, Norrie's disease
- Modern problems in ophthalmology 447 (B), 451 (B)
- Mongolismus, v. Down's syndrome
- Moraxella, v. Pyridoxine deficiency
- Motilität, v. Eye muscle surgery, Hydrodynamic events, Paralysis, Prednison
- Mucocele; ophthalmological complications in mucocele of the frontal sinus 415 (V)
- Multifocal choroiditis; symptoms, natural course and treatment of macular lesions caused by multifocal choroiditis (presumed histoplasmosis) 425 (V)
- Muscles oculaires, v. Enzyme histochemistry, Eye muscle surgery, Paralysis
- Myopia, v. Endocrine influences
- Nahsehschärfe, v. Aids
- Narbe, v. Déformation acquise
- Narkose, v. Examination, Halothane
- Neovascularization, v. Vision deterioration

- Nerf optique, v. Behçet's syndrome, Blue-green disorders, Differentiation, Glaucomatous excavation, Ischaemic optic neuropathy, Optic hypoplasia
Netherlands Ophthalmological Society, 168th meeting, Rotterdam 1973 161–343 (V)
Netherlands Ophthalmological Society, 169th meeting, Enschede 1974 380–446 (V)
Netzhaut, v. Central retinopathy, Cone dystrophies, Fibroplasia, Glaucomatous excavation, Halothane, Hereditary ocular anomalies, Hydrodynamic events, Hyperlipaemia, Optic hypoplasia, Posterior ocular segment, Tapetum lucidum
Neuro-Ophthalmologie, v. Behçet's syndrome, Hyperprolinemia, Optic hypoplasia, Paralysis
Névropathie optique, v. Behçet's syndrome
Norrie's disease 241 (V)
Nutrition, v. Pyridoxine deficiency, Staphyloma, Xerophthalmia
Nystagmus, v. Optic hypoplasia
- Occlusion veineuse, v. Macular changes
Ocular differential diagnosis 448 (B)
Ocular immune responses 527 (B)
Ocular muscles, v. Enzyme histochemistry, Eye muscle surgery, Paralysis
ODG-Pulsationen; neue Methoden zur Analyse der ODG-Pulsationen 440 (V)
Ödem, v. Hydrostatische Druckverhältnisse
Cedème maculaire, v. Fibroplasia, Lens implantation, Macular changes, Vision deterioration
Cedème papillaire, v. Differentiation, Ischaemic optic neuropathy, Lymphoma
Operation, v. Eye muscle surgery, Kryoextraktion, Malignant exophthalmos, Paralysis, Teratoma, Trabeculosclerectomy
- Ophthalmodynamographie, v. ODG-Pulsationen
Optical instrument; demonstration of an optical instrument for refined perimetry 217 (V)
Optic hypoplasia; retinal red-free light photographs in two congenital conditions: a case of optic hypoplasia and a case of congenital hemianopia 119
Optic neuropathy, v. Behçet's syndrome
Optico-oto-diabetic syndrome 345
Opticus, v. Behçet's syndrome, Blue-green disorders, Differentiation, Glaucomatous excavation, Ischaemic optic neuropathy, Optic hypoplasia
Optikusatrophie, v. Blue-green disorders, Differentiation, Optico-oto-diabetic syndrome
Ora serrata, v. Fibroplasia, Pars-planitis
Orbita, v. Amyloidosis, Eye growth, Rare tumors, Schwannoma, Teratoma, Vascular lesion
Orbital disorders 529 (B)
Orbital pain of vascular origin 404 (V)
- Pädo-Ophthalmologie, v. Examination, Peripheral vision, Rare tumors, Screening, Staphyloma, Xerophthalmia
Pâleur du disque, v. Cone dystrophies
Panencephalitis; subacute sclerosing panencephalitis 430 (V)
Papille, v. Glaucomatous excavation
Papillenblässe, v. Cone dystrophies
Papillenödem, v. Differentiation, Ischaemic optic neuropathy, Lymphoma
Paralysis; the diagnosis and treatment of IVth cranial nerve paralysis 292 (V)
Pars-planitis; cytostatics in the treatment of chronic cyclitis ('pars-planitis') 271 (V)
Pathology, v. Amyloidosis, Irismetastase, Rare tumors, Schwannoma, Teratoma, Vascular lesion

- Paupière, v. Down's syndrome, Kryotherapie
- Perimetry, v. Peripheral vision, Scoperimeter
- Peripheral uveitis; possibilities of treatment of peripheral uveitis (pars-planitis) 401 (V)
- Peripheral vision in children 364
- Phosphorus; diagnosis of malignant ocular tumours with radioactive phosphorus (^{32}P) 168 (V)
- Photocoagulation, v. Laser-Trabekulopunktur, Posterior ocular segment, Vision deterioration
- Photographie im rotfreien Licht, v. Optic hypoplasia
- Photophobia, v. Cone dystrophies
- Pigment, v. Vascular lesion
- Pigmentatrophie der Netzhaut, v. Tapetum lucidum
- Pigmentepithel, v. Central retinopathy
- Plattenepithelkarzinom, v. Irismetastase
- Posterior ocular segment; experience with the argon laser for treatment of patients with diseases of the posterior ocular segment 188 (V)
- Poule, v. Eye growth
- Präventivmedizin, v. Screening
- Prednisone; indications and results of prednisone treatment in thyroid ophthalmopathy 163 (V)
- Proceedings, v. Netherlands Ophthalmological Society
- Prolin, v. Hyperprolinemia
- Protanopie, v. Hereditary ocular anomalies
- Pyridoxine deficiency and the conjunctiva 334 (V)
- Radioactive phosphor; the diagnosis of intraocular tumours with the aid of radioactive phosphor 438 (V)
- Radiotherapie, v. Irradiation, Lymphoma
- Rare tumors of the orbit during childhood. Multiform glioblastoma, melanoma, cystic lymphangioma, haemangioendothelioma: ^{67}Ga scanning and anatomico-pathological aspects 463
- Rat, v. Endocrine influences
- Ratgeber für Augenkranke 451 (B)
- Reading vision, v. Aids
- Recherches expérimentales, v. Amino acids, Cytoenzymology, Endocrine influences, Enzyme histochemistry, Eye growth, Halothane, Hydrodynamic events, Lactoferrin, Laser-Trabekulopunktur, Pyridoxine deficiency, Static vision
- Red-free light photography, v. Optic hypoplasia
- Refraction, v. Aids, Endocrine influences, Residual astigmatism, Static vision
- Reihenuntersuchung, v. Screening
- RES, v. Lymphoma
- Residual astigmatism in wearers of contact lenses 180 (V)
- Retardation mentale, v. Norrie's disease
- Retina, v. Central retinopathy, Cone dystrophies, Fibroplasie, Glaucomatous excavation, Halothane, Hereditary ocular anomalies, Hydrodynamic events, Hyperlipaemia, Optic hypoplasia, Posterior ocular segment, Tapetum lucidum
- Retinal artery thrombosis, v. Thrombocytopenia
- Retinal detachment, v. Hydrodynamic events
- Retinal vascular occlusion 394 (V)
- Rétinopathie centrale, v. Central retinopathy
- Rétinopathie diabétique, v. Vision deterioration
- Retrolentale Fibroplasie, v. Norrie's disease
- Rhabdomyosarcoma; clinical aspects of orbital rhabdomyosarcomas 409 (V)
- Rind, v. Amino acids
- Rod, v. Cone dystrophies
- Rougeole, v. Staphyloma, Xerophthalmia
- Rubeosis iridis, v. Vision deterioration

- Scanning electron microscopy of melanoblastomas of the choroid 352
- Scar, v. Déformation acquise
- Schädel, v. Eye growth
- Schielen, v. Microstrabismus, Screening
- Schirmer-Test, v. Pyridoxine deficiency
- Schwachsinn, v. Norrie's disease
- Schwannoma; intrascleral Schwannoma 64
- Sclera, v. Schwannoma
- Scoperimeter; automation of perimetry: the scoperimeter 227 (V)
- Scotoma, v. Glaucomatous excavation
- Screening of young children 340 (V)
- Sehhilfen, v. Aids
- Sehschärfe, v. Aids, Cone dystrophies, Residual astigmatism, Static vision, Vision deterioration
- Schschwäche, v. Examination
- Sinus ethmoidalis, v. Malignant exophthalmos
- Sinus maxillaris, v. Malignant exophthalmos
- Skull, v. Eye growth
- Spasticité musculaire, v. Hyperprolinemia
- Squint, s. Microstrabismus, Screening
- Stäbchen, v. Cone dystrophies
- Staphyloma, v. Xerophthalmia
- Staphyloma corneae in East Africa 303 (V)
- Stargardt's disease, v. Cone dystrophies
- Static vision; influence of correction of peripheral refractive errors on peripheral static vision 128
- Steroids 381 (V)
- Stoffwechsel, v. Hyperlipacmia, Hyperprolinemia
- Strabismus, v. Microstrabismus, Screening
- Subretinal neovascularization from the choroid in the macular area 399 (V)
- Surdité, v. Norrie's disease, Optico-otodiabetic syndrome
- Surgery, v. Eye muscle surgery, Kryoextraktion, Malignant exophthalmos, Paralysis, Teratoma, Trabeculosectomy
- Survival rate, v. Irradiation
- Survival rate of patients with choroidal melanoma 453
- Syndrom, v. Behçet's syndrome, Down's syndrome, Norrie's disease, Optico-otodiabetic syndrome
- Systemic disease; selected topics on the eye in systemic disease 159 (B)
- Szintigraphie, v. Rare tumors
- Tapetum lucidum in a carrier of x-chromosoma atrophía retinae pigmentosa 247 (V)
- Taubheit, v. Norrie's disease, Optico-otodiabetic syndrome
- Telescope, v. Aids
- Tension oculaire, v. Staphyloma
- Teratoma; congenital teratoma of the orbit 247 (V)
- Therapie, v. Irradiation, Kryotherapie, Paralysis, Pars-planitis, Posterior ocular segment, Prednisone
- Therapie 380-446 (V)
- Thrombocytopenia; retinal artery thrombosis in a patient with chronic thrombocytopenia 102
- Thrombose de l'artère rétinienne centrale, v. Thrombocytopenia
- Thymidin, v. Cytoenzymology
- Thyroid ophthalmopathy, v. Eye muscle surgery, Malignant exophthalmos, Prednisone
- Tissu conjonctif, v. Cytoenzymology
- Trabeculosclerectomy with a scleral lid (internal limbectomy) 444 (V)
- Trabekulopunktur, v. Laser-Trabekulopunktur
- Trachomæ; field methods for the control of trachoma 528 (B)
- Tränenflüssigkeit, v. Lactoferrin, Pyridoxine deficiency
- Traffic; on the behaviour in traffic of a homonymous hemianope 427 (V)
- Trauma, v. Déformation acquise
- Tritanopie, v. Blue-green disorders, Hereditary ocular anomalies

- Tropenmedizin, v. Staphyloma, Xerophthalmia
- Tumor, v. Chiasm tumors, Irismetastase, Irradiation, Kryotherapie, Lymphoid tumors, Lymphoma, Malignant melanoma, Phosphorus, Rare tumors, Rhabdomyosarcoma, Scanning electron microscopy, Schwannoma, Survival rate, Teratoma, Vascular lesion, Xeroderma pigmentosum
- Überlebensrate, v. Irradiation, Survival rate
- Untersuchung, v. Optic hypoplasia, Screening
- Uveitis, v. Behçet's syndrome, Pars-planitis
- Uveitis 380–446 (V)
- Vaisseaux, v. Behçet's syndrome, Differentiation, Glaucomatous excavation, Hydrostatische Druckverhältnisse, Hyperlipaemia, Ischaemic optic neuropathy, Kryotherapie, Macular changes, Retinal vascular occlusion, Vascular lesion, Vision deterioration
- Varia 79, 160, 530
- Vascular lesion (arteriovenous aneurysm or haemangioma) of the orbit in a case of chronic granulomatous disease 145
- Venenastverschluss, v. Macular changes
- Verband, v. Bandage
- Vererbung, v. Blue-green disorders, Cone dystrophies, Hereditary ocular anomalies, Hyperprolinemia, Norrie's disease, Optico-oto-diabetic syndrome, Screening, Tapetum lucidum, Vascular lesion, Xeroderma pigmentosum
- Verhandlungsberichte, v. Netherlands Ophthalmological Society
- Vessels, v. Behçet's syndrome, Differentiation, Glaucomatous excavation, Hydrostatische Druckverhältnisse, Hyperlipaemia, Ischaemic optic neuropathy, Kryotherapie, Macular changes, Retinal vascular occlusion, Vascular lesion, Vision deterioration
- Viral keratoconjunctivitis 393 (V)
- Virus, v. Panencephalitis
- Vision deterioration; further vision deterioration after argon laser photocoagulation in diabetic retinopathy 28
- Visual acuity, v. Aids, Cone dystrophies, Residual astigmatism, Static vision, Vision deterioration
- Visual field, v. Behçet's syndrome, Central retinopathy, Optical instrument, Optic hypoplasia, Peripheral vision, Scoperimeter
- Visually evoked cortical potentials (VECPs) in optic neuritis 390 (V)
- Vitamin A, v. Staphyloma, Xerophthalmia
- Vitreous body, v. Déformation acquise, Hydrodynamic events, Kryoextraktion, Posterior ocular segment
- Wachstum, v. Eye growth
- Xeroderma pigmentosum with ophthalmological symptoms 290 (V)
- Xerophthalmia, v. Staphyloma
