

Publications Received for Review

Phonetica 2001;58:213–214

Each fascicle of *Phonetica* provides a list of the publications that have been received for review. Readers who would like to write critical commentaries on any of these books for *Phonetica* are requested to contact the editor,

Prof. *K.J. Kohler*, Institut für Phonetik und digitale Sprachverarbeitung, Universität Kiel, D–24098 Kiel, FRG,

who will arrange for the copies to be sent to them. At the same time, he will inform them about the expected length of the review as well as other technical details, and suggest a date for submitting the manuscripts. The time allotted for preparing reviews will on principle be kept as short as possible in order to enable *Phonetica* to fulfill its obligation of keeping its readers up to date with publications in the field of speech science. Readers are also welcome to suggest any other book in our field for review in *Phonetica*, over and above the ones named in the list of received publications. The editor will then take the necessary steps to obtain copies from the publishing firms.

Martin J. Ball, Raymond D. Kent: The New Phonologies – Developments in Clinical Linguistics, 272 pp.; Singular Publishing Group, Inc., 1997; ISBN 1-56593-082-7.

Martin J. Ball, Joan Rahilly: Phonetics. The Science of Speech, 239 pp.; £14.99. Arnold 1999, ISBN 0-340-70009-2.
