

Subject Index

- A³ and B³ alleles
 - molecular genetics 116
- Albumin
 - virus inactivation by ultraviolet light 82
- Anti-D and anti-c
 - monoclonal antibodies 161
- Anti-HCV
 - 1st or 2nd generation (correspondence) 132
- Anti-HCV, 1st generation
 - variable results (letter) 61
- Anti-Lewis^a
 - hemolytic disease of newborn (letter) 194
- Antibodies, platelet-reactive 167
- Antibody screening test
 - quality problem (letter) 252
- Antiglobulin test, positive direct
 - Sulindac 179
- Autoimmune disorders
 - clinical use of IVIg (review) 65

- Blood donor
 - return behaviour 37
- Buffy coats
 - platelet concentrate 133

- C^w alloimmunization, maternal 226
- Chagas' disease and blood transfusion (review) 1
- CD4 and cell depletion
 - and gp120-immunoglobulin-complement complexes 31
- cDNA clone
 - encoding Rh polypeptide in RhD-negative erythroid cells (letter) 196
- Chromatography
 - highly purified F VIII:c 13
- Chromatography gels, autoclaving (letter) 130
- cis*-AB alleles
 - molecular genetics 120
- CMV antibody prevalence
 - in NE Scottish blood donors 24
- Correspondence:
 - Anti-HCV assay; 1st or 2nd generation? 132 p24
 - significance on immunoblot 63

- DNA commission
 - recommendation on PCR polymorphism 124

- ELO (700.51) 240
- Erythrocyte exchange in cerebral malaria (letter) 56
- Erythrocytes DAF (CD55)⁻, HRF20 (CD59)⁻
 - detection 43

- Factor VIII and IX concentrates
 - clinical evaluation of viral safety (review) 197

- Factor VIII:c
 - highly purified by chromatography 13
- Factor VIII inhibitors, anti-human and anti-procine
 - levels in hemophiliacs 210
- FcγII receptor
 - platelet storage (letter) 188
- Frozen blood
 - transmission of HCV 150

- G6P deficiency
 - transfusion reaction 94
- gp120-immunoglobulin-complement complexes
 - in HIV infection 31
- Granulocyte function
 - influence of granulocyte antibodies 220

- Haemoglobinuria, paroxysmal nocturnal
 - specific diagnosis 43
- HBV and HCV infection
 - in haemodialysis unit in India (letter) 127
- Hemolysis, posttransfusion
 - in recipient of G6PD deficient RBC 94
- Hepatitis C virus
 - RIA re-examined (letter) 253
 - transmission by transfusion 215
 - transmission through frozen blood 150
- Hepatitis C virus confirmation
 - 3rd-generation RIA (letter) 191
- Hepatitis C virus, RNA
 - confirmation in blood donor screening 145
- HIV infection
 - gp 120-immunoglobulin-complement complexes 31
- HIV-1 IgM antibodies in blood donors
 - polymerase chain reaction 89
- HIV-1 western blot results
 - adding SPA (letter) 250
- HTLV-I
 - after multiple transfusion in Trinidad and Tobago (letter) 189
- HTLV-I/II infections
 - in Spain (letter) 59
 - not occurring in Mexico City 57

- Idiopathic thrombocytopenic purpura
 - new mechanism of IVIg 186
- Immune hemolytic anemia
 - caused by IVIg anti-D in treatment of AITP (letter) 184
- Immunoglobulin
 - new mechanism on PA-IgG in ITP (letter) 186
- IVIg
 - in autoimmune disorders (review) 65
 - prepared from high-risk plasma 294
 - virus inactivation by ultraviolet light 82
- IVIg anti-D
 - causing hemolytic anemia in treatment of AITP (letter) 184

- Letter to the editor:
- Anti-HCV, 1st generation
 - variable results 61
 - Antibody screening test
 - quality problem 252
 - Autoclaving chromatography gels 130
 - cDNA clone
 - encoding Rh polypeptide in RhD-negative erythroid cells (letter) 196
 - Change in FcγII receptor during platelet storage 188
 - DMSO/PEG/sugar mixture
 - platelet cryopreservation 248
 - Erythrocyte exchange in cerebral malaria 56
 - HBV and HCV infections in haemodialysis units in India 127
 - HCV
 - RIA re-examined 253
 - HCV confirmation
 - 3rd-generation RIA 191
 - Hemolytic disease of newborn
 - anti-Lewis^a 194
 - HTLV-I
 - in multiple transfused patients in Trinidad and Tobago 189
 - HTLV-I/II infection
 - absent in Mexico City (letter) 57
 - infection in Spain 59
 - Immunoglobulin
 - new mechanism on Pa-IgG in ITP 186
 - IVIg anti-D
 - causing hemolytic anemia in treatment of AITP 184
 - Synthetic peptide assays
 - additional to HIV-1 western blot 250
 - T-transformed red cells 129
 - role of minor cross-match 129
 - Yk (a+)
 - successful transfusion in anti-Yk^a patient 254
 - Zinc status after multiple transfusion 193
- Malaria, cerebral
- erythrocyte exchange (letter) 56
- Mexico City
- HTLV-I/II infection-free (letter) 57
- Molecular genetic analysis of the AB0 blood group system
1. A³ and B³ alleles 116
 2. cis-AB alleles 120
 3. A^x and B^(A) alleles 171
 4. Another type of 0 allele 175
- Monoclonal antibodies, human-mouse
- anti-D and anti-C 161
- Monoclonal antibody
- Rh-related specificity 231
- Murine antihuman IgG
- RBC serology 99
- Obituary
- Peter H.K. Prins 256
- Orosomucoid system
- new nomenclature 47
- p24
- significance on immunoblot (correspondence) 63
- Platelet-associated IgG
- new mechanism of immunoglobulin (letter) 186
- Platelet concentrates
- buffy coats 133
 - new washing solution 19
- Platelet cryopreservation
- DMSO/PEG/sugar solution (letter) 248
- Platelet glycoprotein V
- antibodies 167
- Platelet storage
- FcγII receptor (letter) 188
- Platelet surface immunoglobulin G
- flow cytometric approach 106
- Polymerase chain reaction
- HIV-1 IgM antibodies in blood donors 89
 - Transfusion microbiology 73
- Red blood cell serology
- murine antihuman IgG 99
- Red blood cells, G6DP deficient
- posttransfusional hemolysis in recipients 94
- Red cell antibody
- against Sulindac and Rh 179
- Red cell antigen
- ELO (700.51) 240
- Review:
- Chagas' disease and blood transfusion 1
 - Factor VIII and IX concentrates
 - clinical evaluation of viral safety 197
 - IVIg
 - in autoimmune disorders 65
- Rheology
- of X-ray irradiated blood 139
- Scotland, North-East
- CMV studies on blood donors 24
- Spain
- HTLV-I/II infections (letter) 59
- T-transformed red cells
- role of minor cross-match (letter) 129
- Taiwan blood donation program 154
- Top six
- antibody activity causing agglutination ... 246
 - biosynthetic pathway for formation of blood groups ... 245
 - editorial 244
- Transfusion microbiology
- polymerase chain reaction 73
